The entire right, title and interest in said invention within the United States, in the United States Application and in all divisions, continuations and continuations-in-part of the United States Application, all reissues or extensions of Patents granted thereon, including the right to sue for any acts of infringement of any Patents granted thereon, whether the acts of infringement occurred before or after the execution of this agreement.

Assignor hereby authorizes and requests the United States Commissioner of Patents and Trademarks to issue any and all patents on said invention to the Assignee as the owner of the entire interest, for the sole use and benefit of the said Assignee, its successors, assigns and legal representatives.
