LINC Design, LLC  
c/o Linda van Roosmalen  
139 Shannon Heights Drive  
Verona, PA 15147

Dear Linda:

This letter will memorialize the current status of the proposed assignment of a partial interest in U.S. Patent No. 7,802,337 (hereinafter “the ‘337 patent”) from Robert S. Jamison, Jr. and Lynda G. Jamison (collectively, “the Jamisons”), to LINC Design, LLC (collectively, “the parties”).

It is hereby acknowledged that Linda van Roosmalen and Francis S. Glogowski (collectively, “the developers”) collaborated with the Marshall Elevator Company (hereinafter “Marshall Elevator”) and other individuals, resulting in the filing of a United States Provisional Patent Application entitled “Retractable Ramp”, filed as Application Serial No. 60/761,912 (“the provisional application”). Soon thereafter, an Intellectual Property Assignment Agreement (“the Agreement”) was executed between the developers and Marshall Elevator, specifying that Marshall Elevator owned all right and title to the invention disclosed in the provisional application, and further specifying that Linda van Roosmalen would receive 5% of certain compensation, as defined in the Agreement, and that Francis S. Glogowski would receive 3% of certain compensation, also as defined in the Agreement.

It is further acknowledged that, on October 30, 2007, a non-provisional United States patent application was filed as Application Serial No. 11/928,481 (“the application”), claiming at least a portion of the invention and subject matter disclosed in the provisional application. This application issued as the ‘337 patent on September 28, 2010. On January 23, 2008, an assignment of the application from the named inventors to Marshall Elevator was recorded at the United States Patent and Trademark Office (USPTO) at Reel 20400 and Frame 0377. On July 18, 2011, an assignment of the ‘337 patent from Marshall Elevator to the

Jamisons was recorded at the USPTO at Reel 026605 and Frame 0706. Currently, the Jamisons are the sole assignees of the '337 patent.

It is further acknowledged that the Jamisons invested at least \$50,000 in various fees and costs associated with procuring and maintaining the '337 patent, and made initial efforts at commercializing the subject matter of the '337 patent, including an introduction to the Ricon Corporation.

It is further acknowledged that the Jamisons do not wish to be involved in future efforts to commercialize the subject matter of the '337 patent, but wish to be reimbursed their \$50,000 investment and share in future profits and gains according to a 20% ownership interest.

It is further acknowledged that Francis S. Glogowski may have a right to be compensated for certain commercialization of the '337 patent, as set forth in the Agreement.

It is anticipated that the Jamisons will assign 80% of their interest in the '337 patent to LINC Design, LLC for \$1 and other good and valuable consideration, so that LINC Design, LLC may pursue future efforts to commercialize the subject matter of the '337 patent. The Jamisons will retain a 20% ownership interest in the '337 patent.

It is acknowledged that, after receiving an 80% ownership interest in the '337 patent, LINC Design, LLC shall use all reasonable efforts and diligence in pursuing commercial opportunities relating to the '337 patent.

It is further acknowledged that LINC Design, LLC shall assume any obligations with respect to Francis S. Glogowski and his heirs and assigns.

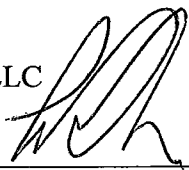

It is further acknowledged that LINC Design, LLC may pursue any contacts or avenues for commercialization established by the Jamisons.

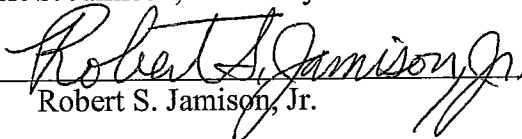

May 29, 2012

It is further acknowledged that any and all profits or other gains derived from any commercialization efforts relating to the '337 patent shall be paid directly to the Jamisons until the Jamisons have been paid at least \$50,000. After being fully reimbursed for the amount of \$50,000, the Jamisons shall receive 20% of the profits or other gains derived from such commercialization.

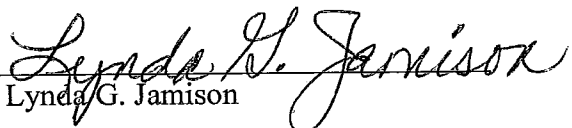

It is further acknowledged that LINC Design, LLC may not assign its rights, title or interests in the '337 patent to any party without first acquiring the written approval of Robert S. Jamison, Jr. or Lynda G. Jamison.

Please indicate your acceptance to these conditions by signing and returning this letter. A copy of this fully executed Letter will be subsequently returned to each party.
