ASSIGNMENT

WHEREAS,

Denny Holmes, residing at 1319 Wellesley Avenue, Apt. 210, Los Angeles, CA 90025;

and,

Tigran Ohanyan, residing at 14759 Kittridge Street, Van Nuys, CA 91405,

(hereinafter collectively referred to as "Assignor"), have invented certain new and useful improvements in "**Methods and Devices for Remanufacturing Printer Cartridges**", (hereinafter referred to as the "Invention") for which Assignor is making or has made application for letter patent of the United States, which application has been duly executed by Assignor on the date(s) listed below.

WHEREAS, Mitsubishi Kagaku Imaging Corporation, a corporation organized and existing under the laws of the State of Delaware, US, having a place of business at 1175 Aviation Place, San Fernando, CA 91340 (hereinafter referred to as "Assignee"), is desirous of acquiring the entire right, title and interest in and to the Patent Application within the United States of America and its territorial possessions and all foreign countries any United States or foreign letters patent that may be granted therefore.

NOW, THEREFORE, in consideration of the sum of one (1) dollar, the receipt of which is hereby acknowledged, and other good and valuable consideration, Assignor hereby assigns, sells and transfers to the Assignee the entire right, title and interest in and to the Patent Application within the United States of America and its territorial possessions and all foreign countries and in and to any letters patent of the United States of America and foreign countries, including utility models, inventor's certificates and like government grants, and all non-provisionals, divisions, reissues, continuations, continuation-in-part applications and extensions of any of the applications that may be granted therefore, and the right to apply for letters patent in foreign countries with full benefit of such priorities as may now or hereafter be granted to Assignor by local laws or by treaty including any international convention, for the protection of industrial property, together with the right to extend the protection of the United States letters patent to the various territorial possessions now owned or which may be hereafter acquired by the United States of America. Assignee will hold all rights for its own use and benefit and for the use and benefit of its successors or assigns to the full end of the term for which the letters patent may be granted, as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment and sale had not been made. Assignor further covenants and agrees with the Assignee that Assignor has a full and unencumbered title to the Patent Application, which title Assignor warrants to the Assignee. Assignor further agrees that Assignor will, without demanding any further consideration therefore, at the request and expense of the Assignee, do all lawful and just acts, including the execution and acknowledgment of instruments, that may be or become necessary for obtaining sustaining, extending, reissuing or reexamining United States and foreign letters patent or the like for the Patent Application, and for maintaining and perfecting the Assignee's right to the Patent Application and letters patent particularly in cases of interference conflict, opposition and litigation.
