## QUITCLAIM ASSIGNMENT

This Quitclaim Assignment is by Quatrotec, Inc., (hereinafter "Assignor"), a Delaware corporation having a principal place of business at 18220 Butterfield Blvd., Morgan Hill, CA 95037.

WHEREAS, Alien Technology Corporation (hereinafter "Assignee"), a Delaware corporation having a principal place of business at 18220 Butterfield Blvd., Morgan Hill, CA 95037, desires to obtain a quitclaim of any right, title, and interest the Assignor may have in or to any and all intellectual property rights in connection to which Assignee has filed an application for a patent with the United States Patent and Trademark Office, including, for example, any and all intellectual property rights in connection with any invention described in the patents and applications listed in Exhibit A.

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, Assignor, through the undersigned authorized officer of Assignor, does quitclaim, assign, transfer and set over unto Assignee, its successors, legal representatives and assigns, any and all right, title, and interest Assignor may have in and to any and all intellectual property rights in connection to which Assignee has filed an application for a patent with the United States Patent and Trademark Office, including, for example, any and all intellectual property rights in connection with any invention described in the patents and applications listed in Exhibit A, and in and to all inventions or improvements that are disclosed in said application (provisional or non-provisional) which may have a declaration executed prior hereto, and in and to said application (provisional or non-provisional) and all provisional applications, non-provisional applications, utility applications, design applications, divisional applications, continuation applications, continued prosecution applications, continuation-in-part applications, substitute applications, renewal applications, reissue applications, reexaminations, extensions, and all other patent applications that have been or shall be filed in the United States and all foreign countries on any of said inventions or improvements, and in and to all original patents, reissued patents, reexamination certificates, and extensions, that have been or shall be issued in the United States and all foreign countries on said inventions or improvements, and in and to all

rights of priority resulting from the filing of said applications, and Assignor hereby authorizes and requests, to the extent of any right Assignor may have to do so, the Commissioner for Patents of the United States, and any Official of any country or countries foreign to the United States, whose duty it is to issue patents on an application as aforesaid, to issue all Letters Patent for such application to the Assignee, its successors, legal representatives and assigns, in accordance with the terms of this instrument.

AND ASSIGNOR HEREBY assigns, transfers, and conveys to Assignee, its successors, legal representatives, and assigns, any claims for damages and all remedies arising out of any violation of the rights assigned hereby that Assignor may have that may have accrued prior to the date of assignment to Assignee, or may accrue hereafter, including, but not limited to, the right to sue for, collect, and retain damages for past infringements of the said Letters Patent before or after issuance.

IN TESTIMONY WHEREOF, I hereunto set my hand this 25<sup>th</sup> day of July, 2012.
