ASSIGNMENT

This Assignment is made by **ZORAK TER-HOVHANNISYAN**, of Burbank, California, **Assignor**, to the **LIGHT EMITTING DESIGN, INC.**, a Nevada corporation, **Assignee**, having a place of business at 2541 N. Keystone Street, Burbank, California 91504.

WHEREAS, Assignor has invented a new and useful **HEAT SINK SYSTEM**, for which an application for United States Letters Patent has been executed by him on the date written below, said application being a continuation of co-pending U.S. Serial No. 12/819,572, entitled IMPROVED HEAT SINK SYSTEM, filed in the United States Patent and Trademark Office on June 21, 2010; and

WHEREAS, Assignor believes himself to be the original, first and sole inventor of the invention disclosed and claimed in said continuation application for Letters Patent; and

WHEREAS, Assignee desires to acquire by formal, recordable assignment the entire right, title and interest in and to said invention, said continuation application and any Letters Patent that may be granted for said invention in the United States and throughout the world;

NOW, THEREFORE, for good and valuable consideration already received, the sufficiency of which is hereby acknowledged, Assignor hereby sells, assigns, and transfers to Assignee, the entire right, title, and interest in and to said invention, said continuation application and any Letters Patent that may be granted for said invention in the United States and throughout the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign

applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

Further, Assignor agrees that, upon request and without further compensation, but at no expense to Assignor, he and his legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing, or enforcing Letters Patent in the United States and throughout the world for said invention, and for perfecting, recording, or maintaining the title of Assignee, its successors and assigns, to said invention, said continuation application, and any Letters Patent granted for said invention in the United States and throughout the world.

Assignor represents and warrants that he has not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Letters Patent granted for said invention, whether on said continuation application or on any subsequently filed division, continuation, continuation-in-part or reissue application, to Assignee, its successors and assigns, as the assignee of the entire interest in said invention.

IN WITNESS WHEREOF, Assignor has executed this Assignment on the date written below.
