Assignment of all interest in Invention to Seikowave, Inc. ("Assignment")

◆ We, Matthew W. BELLIS and Daniel L. LAU, both currently of Lexington, Kentucky, and Hideo Hara of Japan (hereafter "Inventive Collaborator(s)"), while employed by or commissioned to perform work for Seikowave, Inc. have invented|discovered a unique Portable Structured Light Measurement Apparatus with Pattern Shifting Device Incorporating a Fixed-pattern Optic, the subject matter of which is disclosed in a provisional patent app filed with the U.S. Patent Office on 26 July 2011 as U.S. Prov App. No. 61/511,971.

◆ Seikowave, Inc., a business entity domiciled in the State of Delaware with a principal place of business at A264 ASTeCC Building, Lexington, KY 40506 ("Seikowave") desires to confirm its acquisition of the Inventive Collaborators' entire right, title, and interest in this invention|discovery, and each Inventive Collaborator is willing and able to sell—all of which is consistent with Seikowave's technology/innovation ownership policies and any associated agreement(s) under which the Inventive Collaborators performed analysis, research & development for the project covered within U.S. Provisional Application No. 61/511,971.

◆ In consideration of compensation received—and yet to be received—use of Seikowave's facilities, administrative support and information, and other valuable consideration of which receipt is acknowledged by the Inventive Collaborators, each Inventive Collaborator hereby confirms the full sale and assignment:

- (1) in said invention|discovery, and
- (2) in all United States and foreign applications filed therefor including but not limited to provisional, divisional, continuation, continuation-in-part, reissue, or reexamination applications, and
- (3) in any Letters Patent which issue in the United States or elsewhere including but not limited to: utility, utility model, or design patents; patents of implementation, improvement, or addition; inventor's certificates; and extensions of any of these, so that said right, title, and interest is held and enjoyed by Seikowave, its successors and assigns, as fully and entirely as it would have been held and enjoyed by the Inventive Collaborators had this Assignment and sale not been made.

◆ Each Inventive Collaborator hereby agrees to fully execute all documents or papers necessary for obtaining Letters Patent in the U.S. and elsewhere, and further agrees to continue to furnish all data, information, and documentation which may be required for the preparation, filing, and prosecution of applications for Letters Patent in the United States and elsewhere. Since this Assignment is intended for recording, at some point in time, with the U.S. Patent Office, the Commissioner for Patents is hereby directed to issue any patent which may hereafter be granted, to Seikowave, Inc., accordingly.

◆ Intending to be legally bound, each Inventive Collaborator signs below to confirm and execute this Assignment of all interest to Seikowave, Inc., making it effective for that which was invented or discovered as of **01-June-2010** in connection with all technology referenced in the provisional application.
