PATENT SECURITY AGREEMENT

This **PATENT SECURITY AGREEMENT** (this "Agreement") is made as of this 27th day of July, 2012, between **BANK OF AMERICA, N.A.**, a national banking association, in its capacity as agent (together with its successors in such capacity, "Agent") for the Lenders (as hereinafter defined), having an office at 300 Galleria Parkway, N.W., Suite 800, Atlanta, Georgia 30339, and **SAFARILAND, LLC**, a Delaware limited liability company, having its principal place of business at 13886 International Parkway, Jacksonville, Florida 32218 ("Company").

Recitals:

Company, **MAUI ACQUISITION CORP.**, a Delaware corporation ("Holdings"), and **SAFARILAND GLOBAL SOURCING, LLC**, a Delaware limited liability company ("Global Sourcing"; together with Holdings and Company, collectively, "Borrowers" and, each individually, a "Borrower"), desire to obtain loans and other financial accommodations from certain financial institutions (collectively, the "Lenders") that are parties from time to time to that certain Loan and Security Agreement dated as of July 27, 2012, (as at any time amended, restated, supplemented or otherwise modified, the "Loan Agreement"), by and among Borrowers, Agent and Lenders.

Lenders are willing to make loans and other financial accommodations to Borrowers from time to time pursuant to the terms of the Loan Agreement, provided that Company executes this Agreement.

NOW, THEREFORE, for Ten Dollars (\$10.00) in hand paid and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Company hereby agrees with Agent as follows:

1. Capitalized terms used herein (including those used in the Recitals hereto), unless otherwise defined, shall have the meanings ascribed to them in the Loan Agreement.

2. To secure the prompt payment and performance of all of the Obligations, Company hereby grants, assigns and pledges to Agent, for the benefit of the Secured Parties, a continuing security interest in and Lien upon all of the following property of Company, whether now existing or hereafter created or acquired (the "Patent Collateral"):

(a) the entire right, title and interest of Company in and to the patent applications and patents listed in Exhibit A attached hereto (as the same may be amended from time to time), and all re-issues, divisions, continuations, renewals, extensions and continuations-in-part thereof (all of the foregoing being herein collectively referred to as the "Patents"); and

(b) all proceeds of the foregoing (such as, by way of example, license royalties and proceeds of infringement suits).

3. Company covenants with and warrants to Agent that:

(a) The Patents are subsisting and have not been adjudged invalid or unenforceable, in whole or in part;

(b) Except as set forth on Exhibit A attached hereto with respect to Patents that (i) are jointly owned with another Person and/or (ii) have a last recorded owner other than the

Company and Exhibit B attached hereto with respect to Patents with existing Liens or missing links in chain of title, Company is the sole and exclusive owner of the entire and unencumbered right, title and interest in and to each of the Patents, free and clear of any Liens other than Permitted Liens;

(c) Company has the unqualified right to enter into this Agreement and perform its terms; and

(d) Except for expired Patents and Patents abandoned by Company in the Ordinary Course of Business (provided such abandonment could not reasonably be expected to have a Material Adverse Effect), Company will continue to make, all appropriate filings with the United States Patent and Trademark Office and any applicable foreign filing offices to maintain the Patents in existence, including, without limitation, filing all necessary documents with the United States Patent and Trademark Office and any applicable foreign filing offices for each Patent to maintain it without loss of protection therefor, except with respect to Patents that Company has determined are no longer material to the conduct of its business.

4. If, before Full Payment of all of the Obligations, Company shall obtain rights to any new patentable inventions, or become entitled to the benefit of any patent application or patent for any reissue, division, continuation, renewal, extension or continuation-in-part of any Patent or any improvement on any Patent, the provisions of paragraph 2 shall automatically apply thereto and Company shall give to Agent prompt notice thereof in writing.

5. Company irrevocably authorizes and empowers Agent to modify this Agreement by amending Exhibit A to include any future patents and patent applications (it being understood and agreed that Agent will endeavor to use commercially reasonable efforts to give Company three Business Days' prior written notice before filing any amendment with the United States Patent and Trademark Office).

6. Company hereby grants to Agent (and its employees and agents), the visitation, audit, and inspection rights with respect to Company and the Patent Collateral as set forth in the Loan Agreement.

7. At any time that an Event of Default exists, Agent shall have, in addition to all other rights and remedies given it by this Agreement and the other Loan Documents, all rights and remedies of a secured party under the UCC and all other rights and remedies under Applicable Law. Without limiting the generality of the foregoing, at any time an Event of Default exists, Agent may immediately, for the benefit of Secured Parties, without demand of performance and without other notice (except as described in the next sentence, if required by Applicable Law) or demand whatsoever to Company, each of which Company hereby expressly waives, and without advertisement (except as otherwise provided by Applicable Law), collect directly any payments due Company in respect of the Patent Collateral, or sell at public or private sale or otherwise realize upon the whole or from time to time any of the Patent Collateral, or any interest which Company may have therein. Company hereby agrees that ten (10) days notice to Company of any public or private sale or other disposition of any of the Patent Collateral shall be reasonable notice; provided, however, that no notice shall be required hereunder if not otherwise required by Applicable Law. At any such sale or disposition, Agent may, to the extent permitted by Applicable Law, purchase the whole or any part of the Patent Collateral sold, free from any right of redemption on the part of Company, which right Company hereby waives and releases. After deducting from the proceeds of such sale or other disposition of the Patent Collateral all reasonable costs and expenses incurred by Agent in enforcing its rights hereunder (including, without limitation, all reasonable attorneys' fees), Agent shall apply the remainder of such proceeds to the payment of the Obligations, in such order or manner as may be authorized or required by the Loan Agreement. Any remainder of the proceeds after Full Payment of all of the Obligations shall be paid over to Company. If any deficiency

shall arise, Company and each guarantor of the Obligations shall remain jointly and severally liable therefor.

8. Company hereby makes, constitutes and appoints Agent, and any officer or agent of Agent as Agent may select, as Company's true and lawful attorney-in-fact, with full power to do any or all of the following if an Event of Default with respect to Company shall exist: to endorse Company's name on all applications, documents, papers and instruments necessary for Agent to continue the maintenance of or to use the Patents, or to grant or issue any exclusive or nonexclusive license under the Patents to any other Person, or to assign, pledge, convey or otherwise transfer title in or dispose of any Patent Collateral to any other Person. Company hereby ratifies all that such attorney shall lawfully do or cause to be done by virtue hereof. This power of attorney, being coupled with an interest, shall be irrevocable until Full Payment of all of the Obligations.

9. Section 3.4 of the Loan Agreement is incorporated herein *mutadis mutandis*, as if a part hereof.

10. Company shall promptly after obtaining knowledge thereof notify the Agent in writing of the assertion of any Intellectual Property Claim that could reasonably be expected to have a Material Adverse Effect. Company shall have the duty, through counsel reasonably acceptable to Agent, to prosecute diligently any patent application for a Patent pending as of the date of this Agreement or thereafter until Full Payment of the Obligations to make application on unpatented but patentable inventions (subject to Company's reasonable discretion in the ordinary course of business, or, during the existence of an Event of Default, promptly upon Agent's request), to file and prosecute opposition and cancellation proceedings, to file and prosecute lawsuits to protect each Patent and to do any and all acts as Company reasonably deems necessary or desirable to preserve and maintain the Patent Collateral, unless in any such case Company has determined that such Patent is no longer material to the conduct of its business. Any expenses incurred in connection with such an application or proceedings shall be borne by Company. Company shall not abandon any pending patent application or Patent, without the prior written consent of Agent, unless Company has determined that such patent application or Patent is no longer material to the conduct of its business.

11. Notwithstanding anything to the contrary contained in paragraph 10 hereof, Agent shall have the right, at any time that an Event of Default exists, but shall in no way be obligated, to bring suit in its own name to enforce the Patents and any license hereunder, or to defend any suit or counterclaim in its own name to protect any Patents or license hereunder, in either of which events Company shall at the request of Agent do any and all lawful acts (including bringing suit) and execute any and all proper documents required by Agent in aid of such enforcement or defense and Company shall promptly, upon demand, reimburse and indemnify Agent for all reasonable costs and expenses incurred by Agent in the exercise of its rights under this paragraph 11.

12. If Company fails to comply with any of its obligations hereunder and at the time of such failure or as a result thereof an Event of Default exists, then to the extent permitted by Applicable Law, Agent may discharge such obligations in Company's name or in Agent's name, in Agent's sole discretion, but at Company's expense, and Company agrees to reimburse Agent in full for all reasonable expenses, including, without limitation, reasonable attorneys' fees, incurred by Agent in prosecuting, defending or maintaining the Patents or Agent's interest therein pursuant to this Agreement.

13. No course of dealing between Company and Agent, nor any failure to exercise, nor any delay in exercising, on the part of Agent, any right, power or privilege hereunder or under any of the other Loan Documents shall operate as a waiver thereof; nor shall any single or partial exercise of any right,

power or privilege hereunder or thereunder preclude any other or future exercise thereof or the exercise of any other right, power or privilege.

14. All of Agent's rights and remedies with respect to the Patent Collateral, whether established by this Agreement or any of the other Loan Documents, or by any other agreements or by Applicable Law, shall be cumulative and may be exercised singularly or concurrently.

15. The provisions of this Agreement are severable, and if any clause or provision shall be held invalid and unenforceable, in whole or in part, in any jurisdiction, the same shall be deemed severed herefrom and shall not in any manner affect such clause or provisions in any other jurisdiction, or any other clause or provision of this Agreement in any jurisdiction.

16. This Agreement, together with the other Loan Documents, constitutes and expresses the entire understanding of the parties hereto with respect to the subject matter hereof, and supersedes all prior agreements and understandings, inducements or conditions, whether express or implied, oral or written. This Agreement is subject to modification only by writing signed by the parties, except as provided in paragraph 5 hereof.

17. The benefits and burdens of this Agreement shall inure to the benefit of and be binding upon the successors and assigns of each Secured Party and upon the successors and permitted assigns of Company. Company shall not assign its rights or delegate its rights or assign its duties hereunder without the prior written consent of Agent.

18. Company hereby waives notice of Agent's acceptance hereof.

19. This Agreement may be executed in any number of counterparts and by different parties to this Agreement on separate counterparts, each of which, when so executed, shall be deemed an original, but all such counterparts shall constitute one and the same agreement. Any manually executed signature page to this Agreement delivered by a party by facsimile or other electronic transmission shall be deemed to be an original signature hereto.

20. This Agreement shall be governed by and construed in accordance with the internal laws of the State of New York.

21. To the fullest extent permitted by Applicable Law, Company and Agent each waives the right to trial by jury in any action, suit, proceeding or counterclaim of any kind arising out of or related to this Agreement or the Patent Collateral.

[Remainder of page intentionally left blank; signatures appear on following pages.]

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the date first written above.

The following patents owned by the Company are pledged as security for the Company's obligation to make payments to William H. Rogers, pursuant to Section 1.02(e) of that certain Agreement of Sale and Purchase of Stock, by and between the Company (f/k/a Safariland LTD., Inc. and the successor entity to Rogers Holster, Inc.) and William H. Rogers, dated April 29, 1985, as amended by the First Amendment thereto, dated January 1, 2003. The security interest in each such patent expires upon the first to occur of (i) the date of expiration of the useful life of each particular patent and (ii) December 31, 2012.
