**ASSIGNMENT OF APPLICATION FOR UNITED STATES PATENT
AND WORLDWIDE RIGHTS**

Attorney Docket: KB-005

WHEREAS Kevin Doyle of Delray Beach, FL and Keith Schulte of Coconut Creek, FL and Bruce Johnson of Parkland, FL hereinafter referred to as the assignor(s), have/has acquired all rights and title to certain inventions and improvements relating to a INLINE CHLORINATOR WITH INTEGRAL CONTROL PACKAGE AND HEAT DISSIPATION for which said assignor(s) have caused to be filed a US Patent Application,

[] the inventor's declaration for said application being executed concurrently with the execution of this instrument; said application to be filed in the United States Patent and Trademark Office.

[X] said application having been filed in the United States Patent and Trademark Office on October 25, 2005, Serial Number 11/258,136 and issued as U.S. Patent No. 7,695,613;

AND WHEREAS KBK Technologies, Inc. located at 1310 South Powerline Road, Deerfield Beach, FL 33442, hereinafter referred to as the assignee, is desirous of acquiring the entire right, title and interest in and to said application, including any regular applications, divisions, and continuations thereof, and in and to said invention and any patents which may be granted therefor, including any renewals, reissues and prolongations thereof;

NOW THIS WITNESSETH, that for and in consideration of One Dollar (\$1.00), and other good and valuable consideration paid by said assignee to said assignors, the receipt of which is hereby acknowledged, said assignors hereby assigns, sells and transfers to said assignee, and said assignee's successors and assigns, the entire and exclusive right, title and interest in and to said invention and to said application, including any regular applications, divisions, and continuations thereof, and in any patents which may be granted therefor, including any renewals, reissues and prolongations thereof; said assignee, and said assignee's successors and assigns, to have, hold, exercise and enjoy the said invention and said application, including any regular applications, divisions, and continuations thereof, and any patents which may be granted therefor, including any renewals, reissues and prolongations thereof, with all the rights, powers, privileges and advantages in anywise arising from or appertaining thereto, for and during the term or terms of any such patents when granted, including any renewals, reissues and prolongations thereof, for the use and benefit of said assignee, and said assignee's successors and assigns, in as ample and beneficial a manner as the said assignors might or could have held and enjoyed the same, if this assignment had not been made.

Assignors further hereby assigns, sells and transfers, and has assigned, sold, and transferred to Assignee, its successors and assigns, the entire right, title and interest in all countries of the world, in and to the invention and in and to the application and all patents which may be granted therefor, and all national applications, regional applications, divisions, reissues, substitutions, continuations, in whole or in part, re-examinations, and extensions thereof, including the right to file applications and obtain patents for the invention in its own name, in all countries and including all rights of priority in all countries under the terms of any applicable international convention, insofar as its interest is concerned; and the Assignors hereby authorizes and requests the applicable patent office in each country of the world to issue all patents for the invention, or patents resulting therefrom, insofar as its interest is concerned, to the Assignee, to have and to hold for the sole and exclusive use and benefit of the Assignee, its successors and assigns, to the full end of the term or terms for which any and all of such patents for the invention may issue, to the same extent as the Assignors would hold and enjoy if this Assignment had not been made.

AND said assignors hereby agrees to perform, upon the request of said assignee, or said assignee's successors or assigns, any acts relating to the obtaining or to the asserting of said patents, including any renewals, reissues and prolongations thereof.
