ASSIGNMENT

WHEREAS, the undersigned,

John P. FORD, resident of 141 Main Street, Unadilla, NY 13849,

(hereinafter, "Inventor") has made certain new and useful inventions, and has made application for and received patents thereon, as listed in the attached Schedule A (hereinafter, "Schedule IP"), and

WHEREAS, Asymmetric Therapeutics, LLC (hereinafter termed "Assignee"), a limited liability company of the State of Delaware, having a place of business at 141 Main Street, Unadilla, NY 13849, desires to acquire Inventor's entire right, title and interest in and to said Schedule IP; Inventor's entire right, title and interest in and to the inventions disclosed therein and all embodiments of the invention heretofore conceived, made or discovered by said Inventor (all collectively hereinafter termed "said Invention"); and Inventor's entire right, title and interest in and to any and all patents, inventor's certificates and other forms of protection thereon granted in the United States and foreign countries (hereinafter termed "Patents").

NOW, THEREFORE, in consideration of good and valuable consideration, receipt and sufficiency of which is acknowledged by said Inventor to have been received in full from said Assignee:

1. Said Inventor does hereby sell, assign, transfer and convey unto said Assignee, his entire right, title and interest (a) in and to said Schedule IP, Invention, and Patents; (b) in and to all rights to claim priority to said Schedule IP and in and to all rights to apply for foreign patents on said Invention pursuant to the International Convention for the Protection of Industrial Property or otherwise; (c) in and to any and all applications filed or to be filed and any and all patents granted or to be granted on said Invention in the United States or any foreign country, including each and every application filed and each and every patent granted on any application which is a division, substitution, or continuation of any of said applications; and (d) in and to each and every reissue or extensions of any of said patents.

2. Said Inventor hereby covenants and agrees to cooperate with said Assignee to enable said Assignee to enjoy to the fullest extent the right title and interest herein conveyed in the United States and foreign countries. Such cooperation by said Inventor shall include prompt production of pertinent facts and documents, giving of testimony, execution of petitions, oaths, specifications, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by said Assignee (a) for perfecting in said Assignee the right, title and interest herein conveyed; (b) for prosecuting any of said

applications; (c) for filing and prosecuting substitute, divisional, continuing or additional applications covering said invention; (d) for filing and prosecuting applications for reissuance of any said patents; (e) for interference or other priority proceedings involving said invention; and (f) for legal proceedings involving said invention and any applications therefor and any patents granted thereon, including without limitation opposition proceedings, cancellation proceedings, priority contests, public use proceedings, infringement actions and court actions; provided, however, that the expense incurred by said Inventor in providing such cooperation shall be paid for by said Assignee.

3. The terms and covenants of this assignment shall inure to the benefit of said Assignee, its successors, assigns and other legal representatives, and shall be binding upon said Inventor, his/her respective heirs, legal representatives and assigns.

IN WITNESS WHEREOF, the said Inventor has executed and delivered this instrument to said Assignee.
