Capitalized terms used but not otherwise defined in this Patent Security Agreement shall have the meanings assigned to such terms in the Credit Agreement.

RECITALS

WHEREAS, Grantor, owns the Patents, Patent registrations, and Patent applications listed on **Schedule 1** annexed hereto, and is a party to the Patent Licenses listed on **Schedule 2** annexed hereto; and

WHEREAS, Grantor has entered into that certain Credit Agreement dated as December 16, 2010 (as the same has been and may be amended, restated, supplemented or otherwise modified from time to time, the "Credit Agreement"), with Grantee, the other Loan Parties signatory thereto and the Lenders party thereto, providing for extensions of credit and other financial accommodations to be made to Grantor by Lenders; and

WHEREAS, pursuant to the terms of a Security Agreement dated as December 16, 2010 (as the same has been and may be amended, restated, supplemented or otherwise modified from time to time, the "Security Agreement"), by and among Grantor, Grantee, and the other Persons party thereto as "Grantors" thereunder, Grantor has granted to Grantee, for the benefit of itself and the other Secured Parties, a security interest in substantially all the assets of Grantor including all right, title and interest of Grantor in, to and under all now owned and hereafter acquired Patents, Patent registrations, Patent applications and Patent Licenses, and all proceeds thereof, to secure the payment of the Obligations;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor does hereby grant to Grantee, to secure payment of the Obligations, a continuing security interest in all of Grantor's right, title and interest in and to the following (all of the following items or types of property being herein collectively referred to as the "Patent Collateral"), whether presently existing or hereafter created or acquired:
