PATENT ASSIGNMENT

This PATENT ASSIGNMENT ("**Agreement**"), dated as of June 13, 2012, is entered into by and between SANDHILL BIO CORPORATION, a Delaware company having an address at 3422 Old Capitol Trail, Ste. 1757, Wilmington, DE 19808 ("**Assignor**"), and THE BOARD OF TRUSTEES OF THE LELAND STANFORD JUNIOR UNIVERSITY ("**Assignee**"). Assignor on the one hand, and Assignee on the other hand, are each sometimes referred to herein as a "**Party**" and collectively as the "**Parties**" to this Agreement.

WHEREAS, Assignor has the right to assign the "Assigned Patents" as defined below and Assignee desires to acquire an ownership interest in the Assigned Patents;

NOW THEREFORE, in consideration of the premises and mutual covenants herein contained, Assignor and Assignee agree as follows:

Section 1. Definition

"Assigned Patents" shall mean the issued U.S. and foreign patents and patent applications relating to (1) U.S. Patent Application, Serial Number 13/395,736, entitled "Compositions and Methods for Reducing the Risk of Agent-Induced Liver Toxicity," and (2) U.S. Patent Number 7,698,117, entitled "System and Method for Predicting Chromosomal Regions That Control Phenotypic Traits."

Section 2. Assignment

2.1 Assignor shall transfer and assign to Assignee all of Assignor's right, title and interest to any and all patent ownership interest Assignor may have throughout the world in and to the Assigned Patents.

2.2 Assignee shall be solely responsible for all actions and all costs whatsoever, including attorney's fees, arising after the said transfer and assignment defined in 2.1 have been completed. Upon Assignee's written request, Assignor shall execute all documents and instruments, and shall do all lawful acts, in each case as may be reasonably necessary and at Assignee's expense, to perfect Assignee's rights, title, and interest in and to the Assigned Patents. For documents that require notarization, the foregoing obligation of Assignor shall be satisfied if Assignor reasonably cooperates in obtaining signatures, notarized by an appropriate notary; any notarial authentication, legalization, and the like of such notarized signatures shall be obtained by Assignee at Assignee's expense.

2.3 Assignee shall be solely responsible for all actions and all costs whatsoever, including attorney's fees, arising after the said transfer and assignment defined in 2.1 have been completed and associated with the continuous prosecution and the maintenance and enforcement of the Assigned Patents, and Assignor shall have no obligation to pay any maintenance fees which become due for the Assigned Patents after the said transfer and assignment defined in 2.1 have been completed.

2.4 No license, immunity, ownership interest, or other right is granted under this Agreement, now or hereafter, either directly or by implication, estoppel, or otherwise, except with respect to the Assigned Patents as expressly set forth herein.

2.5 At the request and cost of the Assignee, the Assignor shall assist the prosecution of any pending Assigned Patents application ("Application") to grant and will execute all such documents and do all such acts as may be necessary or proper to obtain the acceptance of the Application and for procuring the grant of a patent pursuant to Application. In the event that the United States Patent and Trademark Office or any other competent government or administrative authority sends to either party an objection, a query, or a request demanding further information, clarification or explanation, the Assignor shall render to the Assignee all information and assistance within its power with a view to satisfying the United States Patent and Trademark Office or any other competent authority that a patent shall issue substantially in the form applied for.

Section 3. Miscellaneous

The Parties agree that a copy of the original signature (including an electronic copy or a fax copy) may be used for any and all purposes for which the original signature may have been used. The Parties further waive any right to challenge the admissibility or authenticity of this Agreement in a court of law based solely on the absence of an original signature.

IN WITNESS WHEREOF, each of the Parties hereto has caused this Agreement to be duly executed in duplicate originals by their duly authorized representatives as of the day and year first above written.
