ASSIGNMENT

THIS ASSIGNMENT, effective as of the date signed, between **Pillar Ventures, LLC** (hereinafter referred to as **ASSIGNOR**), a corporation of the State of Delaware, with offices at 201 Main Street, Suite 150, Los Altos, CA 94022, and **WIMM Labs, Inc.** (hereinafter referred to as **ASSIGNEE**), a corporation of the State of Delaware, with offices at 289 S. San Antonio Road, Suite 100, Los Altos, CA 94022, hereby sells, assigns, and transfers the entire right, title and interest for the United States and all foreign countries, in and to any and all improvements which are disclosed in the applications for the United States Patent and issued United States patents listed in the attached **Schedule A**.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, ASSIGNOR hereby sells, assigns, and transfers unto ASSIGNEE the full, exclusive, non-revocable, and worldwide rights currently owned or acquired in the future in and to the Transferred Patents and any and all patents issuing therefrom, and any continuation, divisional, continuation-in-part applications, reissues, and re-examinations, based on any such patent applications that exist as of the date hereof, and any foreign counterparts of such patent applications and any and all patents issuing thereon, continuation, divisional, continuation-in-part applications, reissues and re-examinations that exist as of the date hereof.

ASSIGNOR hereby authorizes and requests the Commissioner of Patents and Trademarks, and any officials of foreign patent systems whose duty it is to issue patents or related rights on the Transferred Patents (or any portion thereof) to issue any patents or document conveying rights arising therefrom to ASSIGNEE in accordance with the terms of this assignment for ASSIGNEE's sole use and behalf, to the full end of the term for which any patents may be granted, as fully and entirely as the same would have been held by ASSIGNOR had this assignment and sale not been made.

ASSIGNOR agrees that upon request of ASSIGNEE, and without further remuneration, to execute any and all papers desired by ASSIGNEE, for full protection and title in and to the Transferred Patents and all patents issuing thereon which are hereby transferred, including any and all papers desired by ASSIGNEE for the filing and granting of foreign applications and the perfecting of title thereto in ASSIGNEE.

ASSIGNOR hereby covenants and agrees to communicate to ASSIGNEE any facts known to the ASSIGNOR with respect to the Transferred Patents and all patents issuing thereon; provide relevant prior art material as required by law; testify in any legal proceeding; sign all lawful papers; execute all divisional, continuation, continuation-in-part applications, reissues and re-examinations; make all rightful oaths or declarations; and generally do everything possible to obtain, maintain, and enforce proper legal protection for the Transferred Patents and all patents issuing thereon in all countries.

ASSIGNOR hereby further covenants and agrees that ASSIGNOR has the full right to convey the entire interest herein assigned, and ASSIGNOR has not and will not execute any agreement in conflict herewith.

ASSIGNOR agrees that if any provision of this Assignment shall for any reason be held to be invalid or unenforceable, such decision shall not affect, impair or invalidate the remainder of this Assignment but shall be confined in its operation to the provision of this Assignment directly involved in the controversy in which the decision was rendered. The invalid or unenforceable provision shall be reformed so that each ASSIGNOR shall have the obligation to perform reasonably in the alternative to give the ASSIGNEE the benefit of its bargain. In the event the invalid or unenforceable provision cannot be reformed, the other provisions or applications of this Assignment shall be given full effect, and the invalid or unenforceable provision shall be deemed stricken.
