PATENT ASSIGNMENT

THIS PATENT ASSIGNMENT (this "Assignment") is made and entered into as of 27 JUNE 2012, 2012 (the "Effective Date") by and between JENSEN DEVICES AB, a company duly organized and registered under the laws of Sweden, reg. no. 55605-9522 ("Assignor") and BOURNS, INC., a California corporation ("Assignee").

WHEREAS, Assignor and Assignee are parties to that certain Asset Transfer Agreement, dated as of the date hereof (the "Purchase Agreement").

WHEREAS, pursuant to the Purchase Agreement, Assignor wishes to assign to Assignee, and Assignee wishes to acquire from Assignor, the patents and patent applications set forth on Schedule 1 attached hereto (collectively, the "Assigned Patents").

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby in accordance with the terms and conditions in the Purchase Agreement, including without limitation its regulations on purchase price, warranties and assistance, sells, assigns, transfers and sets over to Assignee its entire right, title and interest in and to the Assigned Patents, including, without limitation, any continuations, divisions, continuations-in-part, reissues, reexaminations, extensions or foreign equivalents thereof, and all other corresponding rights that are or may be secured under the laws of the United States and any foreign country, now or hereafter in effect, for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made, together with all income, royalties, damages or payments due or payable as of the Effective Date or thereafter, including, without limitation, all claims for damages by reason of past, present or future infringement or other unauthorized use of the Assigned Patents, with the right to sue for, and collect the same for its own use and enjoyment, and for the use and enjoyment of its successors, assigns, or other legal representatives.

Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks, and the corresponding entities or agencies in any applicable foreign countries, to record Assignee as the assignee and owner of the Assigned Patents.

This Assignment may be executed simultaneously in two or more counterparts (including facsimile versions), each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

This Assignment and the legal relations among the parties hereto shall be governed by and construed in accordance with the laws of Sweden, without regard to its conflict of laws principles.
