ASSIGNMENT

WHEREAS, Oliver Haaf, Christian Haag, and Sven Walter, hereinafter called the "Assignor," has made the invention described in the United States patent application entitled AXIAL FAN WITH ADDITIONAL FLOW CHANNEL, for a full description of which reference is here made to an application for Letters Patent of the United States herewith, or filed on July 10, 2012 and assigned Application No. 13/545,476, (we hereby authorize our attorney of record in the application to insert the application filing date and number when they become known);

WHEREAS, EBM-PAPST MULFINGEN GMBH & CO. KG, a German corporation having a principal place of business at Bachmühle 2, 74673 Mulfingen, Germany, hereinafter called the "Assignee," desires to acquire the entire right, title and interest in and to the invention and the patent applications identified above, and all patents which may be obtained for said invention, as set forth below;

NOW, THEREFORE, in consideration of the sum of One Dollar (\$1.00), and other valuable and legally sufficient consideration, the receipt of which by the Assignor from the Assignee is hereby acknowledged, the Assignor has sold, assigned and transferred, and by these presents do sell, assign and transfer to the Assignee, the entire right, title and interest for the United States in and to the invention and the patent applications identified above, and any patents that may issue for said invention in the United States; together with the entire right, title and interest in and to said invention and all patent applications and patents therefor in all countries foreign to the United States, including the full right to claim for any such applications all benefits and priority rights under any applicable law or convention; together with the entire right, title and interest in and to all continuations, divisions, renewals and extensions of any of the patent applications and patents defined above; together with the right to recover all damages, including, but not limited to, a reasonable royalty, by reason of past, present, or future infringement or any other violation of patent or patent application rights; to have and to hold for the sole and exclusive use and benefit of the Assignee, its successors and assigns, to the full end of the term or terms for all such patents.
