ASSIGNMENT OF INTELLECTUAL PROPERTY

WHEREAS, **L.C. ELDRIDGE SALES CO., LTD.**, hereafter "**Assignor**," is record owner of certain new and useful methods, devices, and/or systems that are disclosed and/or claimed in United States Patent No. 7,905,947 entitled "METHOD AND APPARATUS FOR REMOVING CONTAMINATES FROM AIR," which issued March 15, 2011 (hereinafter, "**'947 Patent**"); and

WHEREAS, **LESEMAN DAVIS, LLC**, hereafter "**Assignee**," is desirous of acquiring the entire and exclusive right, title and interest in and to, and possession of, the subject matter disclosed and claimed in the **'947 Patent**, including any tangible materials, know-how and trade secrets related thereto (hereafter, collectively, the "**Invention**"); and the entire and exclusive right, title and interest in and to, and possession of the **'947 Patent**, including rights to claim priority thereto, and to all related applications disclosing or claiming the **Invention** in whole or in part, including, without limitation, all provisional applications, non-provisional applications, divisional applications, continuation applications, renewals, reissues, reexaminations, substitutes or extensions thereof, and to all patents or other related property rights that may be issued or granted thereon anywhere in the world (hereafter, collectively, the "**Intellectual Property**").

NOW, THEREFORE, for one dollar (US \$1.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, **Assignor** has hereby assigned, transferred, and conveyed, and does hereby assign, transfer, and convey to **Assignee**, its successors and assigns, the entire and exclusive right, title, and interest in and to, and possession of, the aforesaid **Intellectual Property**, throughout the world, including the right in and to all income, royalties, damages, and payments now or hereafter due or payable with respect to any patent or related property right that may be granted, and in and to all causes of action (either in law or in equity), and the right to sue, counterclaim, and recover for past, present and future infringement of the rights assigned or to be assigned hereunder, as fully and entirely as the same would have been held and enjoyed by **Assignor** if this assignment and transfer had not been made;

AND **Assignor** hereby authorizes and requests the appropriate governmental officials to issue any and all such United States or foreign country patent or related property right assigned hereunder, to **Assignee**, as the assignee of the entire and exclusive right, title and interest in and to the same;

AND **Assignor** hereby represents, warrants, and covenants that it has the full right to convey the interest herein assigned, that it has not executed and will not execute any instrument or assignment in conflict herewith, and that the rights assigned herein are not otherwise encumbered by any grant, license, or right;

AND **Assignor** further covenants and agrees that **Assignor** will at any time upon request make, execute, and deliver without further compensation, any and all other instruments in writing, including further applications, papers, affidavits, power of attorney, assignments, and other documents, and do all lawful acts and things, which, in the opinion of counsel for **Assignee**, its successors and assigns, may in any country be required or necessary more effectively to secure to and vest in **Assignee**, its successors and assigns the **Intellectual Property**, and that **Assignor** will sign any applications for reissue, division, continuation, continuation-in-part, counterpart, renewal, reexamination, substitute, or extension of said **'947 Patent** or any resulting patent or related property right;

AND **Assignor** further covenants and agrees that **Assignor** will at any time upon request communicate to the **Assignee**, its successors, assigns or other legal representatives any facts relating to the aforesaid **Invention**, the '**625 Patent**, and **Intellectual Property** known to it, and will testify as to the same in any interference, litigation, mediation, arbitration, or other proceeding when requested to do so.
