**ASSIGNMENT**

WHEREAS, **Arven Inc. of 2620 South Maryland Parkway #202, Las Vegas, Nevada 89109, USA**, a corporation organized under the laws of the state of Nevada, having an ownership interest in application 61/529,471 filed on August 31, 2011 ("Application") relating to **COMPOSITION FOR CORROSION PREVENTION** ("Invention") and having full right to convey their entire interest both legal and equitable herein assigned; and

WHEREAS, **Tesla Nanocoatings, Inc. of 6200 Frank Avenue NW, Stark State College, Advanced Technology Center T-101, North Canton, Ohio 44720, USA**, corporation of the State of Delaware (assignee) is desirous of acquiring the entire right, title, and interest in and to said application and said invention described therein and any and all patents to be obtained therefore, all as hereinafter set forth:

NOW, THEREFORE, in consideration of good and valuable consideration received by the undersigned, the undersigned does hereby sell, assign, transfer and set over unto said assignee, its successors and assigns, the entire right, title and interest in and to said invention or inventions, as described in the aforesaid application, in any form or embodiment thereof, and in and to the aforesaid application; and in and to any application filed in any foreign country based thereon, including the right to file said foreign applications under the provisions of the International Convention; also the entire right, title and interest in and to any and all patents or reissues or extensions thereof to be obtained in this or any foreign country upon said invention or inventions and any utility, design, divisional, continuation, continuation-in-part or substitute applications which may be filed upon said invention or inventions in this or any foreign country; and the undersigned hereby authorize and request the issuing authority to issue any and all patents on said application or applications to said assignee or its successors and assigns.

The undersigned further agrees to execute all utility, design, divisional, continuing, substitute, improvement, extension, reissue and other patent applications in this or any foreign country relating to said application or invention and to sign all other lawful papers and to perform all other lawful acts without further consideration, but without expense to myself, which the assignee may deem necessary or desirable to make this Assignment fully effective including by way of example, but not of limitation, the following acts:

(1) Prompt execution of all lawful oaths, affidavits and/or supplemental oaths required or deemed advisable by the assignee to further the prosecution of any application or applications for letters patent relating to the subject matter of this Assignment;

(2) To co-operate to the best of my ability in the execution of all lawful documents, the production of evidence, and the giving of testimony in interference, opposition, nullification or infringement proceedings involving the said invention or improvement, applications or patents or any of them.

The undersigned, intending to be legally bound, have signed this Assignment on the date written by the undersigned's signature below.
