OF CERTAIN INTELLECTUAL PROPERTY**

This Agreement Regarding the Ownership of Certain Intellectual Property (this "Agreement ") is made and entered into effective as of this 19 day of October, 2012 (the "Effective Date ") by and between KBRS, Inc. d/b/a KBRS Manufacturing, Inc. ("KBRS"), Davis Systems, Inc. ("DSI") (each an "Assignor" and collectively the "Assignors") and Thomas A. Davis, Jr., an individual (the "Assignee"). Assignors and Assignee are collectively referred to herein as the "Parties."

**BACKGROUND**

The Parties acknowledge and agree that Assignee is the rightful owner of all right, title, and interest in and to the patents, trademarks, and intangible assets described in this Agreement (the "Intellectual Property").

The Parties desire to clarify the ownership of the Intellectual Property to avoid confusion and false claims going forward.

The Parties therefore enter into this Agreement, which acknowledges and otherwise assigns the Intellectual Property to Assignee in order to provide a record of the ownership of the Intellectual Property.

The Assignors authorize and request the Commissioner of Patents and Trademarks to issue any and all trademarks and patents of the United States resulting from the assigned patents, assigned trademarks, and Intellectual Property and from any and all divisions, continuations, and reissues thereof, to Thomas A. Davis, Jr., as assignee of Assignors' entire interest, and hereby covenant that Assignors have the full right to convey the entire interest herein assigned, and that Assignors have not executed and will not execute any agreement in conflict herewith with the United States Patent and Trademark Office ("USPTO").

**AGREEMENT**

The parties therefore, in consideration of the mutual promises and covenants contained herein, and for other good and valuable consideration, the receipt of which is hereby acknowledged, agree as follows:

thereof, and (iii) the goodwill connected with the use of the trademarks set forth in Schedule 1 and symbolized thereby (collectively, the "Assigned Trademarks").

2. Assignment of Patents. Assignors hereby transfer, convey, assign and deliver to Assignee, and Assignee accepts, all right, title and interest of Assignors in and to the patents set forth in Schedule 2 hereto, and any patents resulting from the inventions disclosed or claimed therein, including any and all reissues, re-examinations, continuations, divisionals or continuation-in-part applications and patents thereof, and any foreign counterpart applications and patents, as well as any improvements to the inventions disclosed or claimed in such applications and patents (the "Assigned Patents").
3. Transfer of Intangible Assets. Assignors hereby transfer, convey, assign and deliver to Assignee, and Assignee accepts, all right, title, and interest of Assignors in and to the goodwill and all other intangible assets currently used in connection with the Assigned Trademarks and the Assigned Patents, including, without limitation, if and to the extent in existence, any and all trade secrets, inventions, designs, copyrights, and other intellectual property, know-how, manufacturing methods and processes (the "Assigned Intangible Assets").
4. Rights and Privileges. Assignor acknowledges and agrees that all rights and privileges, including, without limitation, the right to sue for and receive all damages from past, present, and future infringements of the Assigned Trademarks, the Assigned Patents, and the Assigned Intangible Assets, shall be held and enjoyed by Assignee and its successors and assigns.
5. Authorization. Assignors authorize and request the Commissioner of Patents and Trademarks of the United States, and any other official throughout the world whose duty is to register and record ownership in trademark applications and/or registrations and patent applications and/or patents (including any applications pursuant to the Patent Cooperation Treaty) for registration of trademarks and patents, to record Assignee as the assignee and owner of any and all of Assignor's rights in the Assigned Trademarks and the Assigned Patents.
6. Further Assurances. At the request of Assignee, Assignors shall make, execute and deliver such documents as may be needed or reasonably requested by Assignee in protecting its rights in any Assigned Trademarks, Assigned Patents, or Assigned Intangible Assets or to give effect to the provisions of this Agreement.
