ASSIGNMENT

WHEREAS, Microcos BV, a Dutch corporation having a principal place of business at Nieuwe Kanaal 7P, 6709 PA Wageningen, The Netherlands (hereinafter, the "Assignor"), is the sole owner of patent rights set forth and disclosed in U.S. Patent 5,824,468, entitled DETECTION OF LISTERIA BY MEANS OF RECOMBINANT BACTERIOPHAGES, which was filed on May 17, 1996 as U.S. Patent Application Serial No. 08/648,978, and which claims priority to German Patent Application Serial No. DE195 17 940.4 (collectively referred to hereinafter as the "Intellectual Property").

WHEREAS, Sample6 Technologies, Inc., a Delaware corporation having a principal place of business at 27 Drydock Avenue, Boston, MA 02210 ("Assignee"), is desirous of acquiring the entire right, title and interest in and to said Intellectual Property and in and to any and all Letters Patent of the United States and foreign countries that may be obtained from the Intellectual Property;

WHEREAS, Assignor desire to affirm that they did previously, for good and valuable consideration assign the Intellectual Property to Assignee on October 24th, 2012.

NOW, THEREFORE, for good and valuable consideration, the receipt for and sufficiency of which is hereby acknowledged, Assignor confirms that it did and does hereby sell, assign, transfer and set over unto Assignee, its legal representatives, successors, and assigns, the entire right, title and interest in and to the Intellectual Property, including any applications which claim priority to any of the Intellectual Property, any applications to which any of the Intellectual Property claim priority, and any continuations, continuations-in-part, divisions, reissues, re-examinations or extensions thereof, and in and to any and all patents of the United States and foreign countries which may be issued from any of the Intellectual Property;

UPON SAID CONSIDERATION, Assignor shall not execute any writing or do any act whatsoever conflicting with the terms and conditions of this assignment, and Assignor will, at any time upon request, without further or additional consideration, execute such additional assignments and other writings and do such additional acts as Assignee may deem necessary or desirable to perfect the Assignee's enjoyment of this grant, and render all necessary assistance in making application for or obtaining original, divisional, continuations, continuations-in-part, reexamined, reissued, or extended Letters Patent of the United States or of any and all foreign countries based on the Intellectual Property, and in enforcing any rights or choses in action accruing as a result of such applications or patents, by giving testimony in any and all proceedings or transactions involving such applications or patents, and by executing preliminary statements and other affidavits, it being understood that the foregoing covenant and agreement shall bind and inure to the benefit of the assigns and legal representatives of Assignor and Assignee;

The undersigned hereby grant(s) the firm of PEPPER HAMILTON LLP the power to insert on this Assignment any further identification, including the application number and filing date, which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

AND Assignor requests that any patents that may be issued based on the Intellectual Property be issued to Assignee, its legal representatives, successors or assigns, as the sole owner of the entire right, title and interest in and to said patent and the invention covered thereby.
