OP \$40.00 13026207

ASSIGNMENT AGREEMENT

For one dollar and other good and valuable consideration, the receipt, sufficiency, and adequacy of which is hereby acknowledged, the undersigned inventor or inventors (hereinafter called "ASSIGNOR") hereby assigns, transfers, and sets over to:

Name: Iterative Therapeutics, Inc.

Incorporated in the state of: Delaware

Address: Iterative Therapeutics, Inc.
3430 North Lake Shore Dr., #11M
Chicago, IL 60657

(hereinafter called "ASSIGNEE") and its successors and assigns, the entire worldwide right, title, and interest in and to the application

entitled: "METHODS OF USING FUSION PROTEINS"

for which a United States Patent Application having Attorney Docket No. 1029.0002-D1 was filed on 13/026,207, and assigned U.S. Application No. February 12, 2011 ,

all inventions disclosed therein, any improvements thereon, and all rights and privileges under any Letters Patent which may be issued or reissued thereon or upon any additional, continuing, or divisional applications thereof in the United States or any other national jurisdiction, regional jurisdiction, and/or international patent issuing authority/organization, including all rights, if any, to sue for past infringement.

(1) ASSIGNOR agrees, without charge to said ASSIGNEE, but at ASSIGNEE's expense (a) to execute (i) all necessary papers (such as, but not limited to, declarations and disclaimers) to be used in connection with this application and any continuing and divisional applications, and any reexamination and reissue proceedings, as the ASSIGNEE or its successors and assigns may deem necessary or expedient, (ii) all papers in connection with any interference or other legal or quasi-legal proceedings relating to this application or any additional, continuing, or divisional application thereof as well as any corresponding application in a non-US national jurisdiction, regional jurisdiction, and/or international patent issuing authority/organization; (b) to cooperate with ASSIGNEE and its successors and assigns in every way possible in obtaining evidence (such as, but not limited to, performing experiments and providing facts and documents) and going forward in any such proceedings (at no expense to ASSIGNOR); and (c) to perform all other affirmative acts which may be necessary or desirable to obtain a grant of a patent for said invention.

(2) ASSIGNOR hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States to issue any and all Letters Patent that may be granted upon the above-identified patent application or any additional, continuing or divisional

applications thereof to the ASSIGNEE or its successors and assigns.

(3) ASSIGNOR hereby authorizes the ASSIGNEE, its successors and assigns, to file in its own name, applications for patents under the patent laws of any country of the world in connection with the inventions hereby transferred, under the International Convention claiming the priority of the U.S. application or otherwise, and to secure in its own name the patent or patents issued thereon.

(4) ASSIGNOR covenants and warrants that he/she has full right to convey the entire right, title and interest by this instrument, free of any encumbrances and that no other agreement has been or will be executed in conflict herewith, with the exception of the Intellectual Property Assignment Agreement to Inventor(s) entered into on March 27, 2007 between ASSIGNOR and the University of Chicago (hereinafter called "MARCH 2007 AGREEMENT").

(5) ASSIGNOR hereby grants to the law firm of STIPKALA LLC of North Charleston, SC (with offices in Minnesota and Ohio), authority and power to insert on this instrument any further identification which may be necessary or desirable for purposes of recordation in the United States Patent and Trademark Office or a Patent Office of any non-US national jurisdiction, regional jurisdiction, and/or international patent issuing authority/organization.

(6) ASSIGNOR and ASSIGNEE agree that this assignment shall fulfill the purposes of a Deed of Assignment in jurisdictions requiring same.

(7) Further to the MARCH 2007 AGREEMENT, ASSIGNOR and ASSIGNEE agree that the University of Chicago, its trustees, officers, employees, and agents are third party beneficiaries of this Assignment Agreement.

(8) Further to the MARCH 2007 AGREEMENT, ASSIGNEE agrees that at all times during the term of this Assignment Agreement and thereafter, each party shall jointly and severally indemnify and hold harmless the University of Chicago, its trustees, officers, employees, and agents, against all claims, proceedings, demands and liabilities of any kind whatsoever, including legal expenses and reasonable attorneys' fees, arising out of the death of or injury to any person or persons or out of any damage to property, or resulting from the production, manufacture, sale, use, lease, consumption or advertisement of any product incorporating the invention, or which falls within the claims of any issued or pending patent of the subject invention, or arising from any obligation thereof.

(9) Further to the MARCH 2007 AGREEMENT, ASSIGNEE agrees that prior to the first commercial sale of any product incorporating the invention, commercial, general liability insurance covering the University of Chicago, its trustees, officers, employees, and agents, shall be obtained. Such insurance shall be written by a reputable insurance company with an A.M. Best financial strength rating of at least "A", shall list the University of Chicago as an additional insured thereunder, shall include product liability coverage, and shall require thirty (30) days written notice to be given to the University of Chicago prior to any cancellation or material change thereof. The limits of such insurance shall not be less than One Million Dollars (\$1,000,000) per occurrence with an

aggregate of Three Million Dollars (\$3,000,000) for personal injury, death, or property damage.
