WHEREAS, REGAL WARE, INC., a Delaware corporation, having offices located at 1675 Reigle Drive, Kewaskum, Wisconsin 53040 ("ASSIGNOR"), owns Fifty Per Cent (50%) of the right, title and interest in and to the U.S. patent application listed on Schedule A attached hereto and made a part hereof and to the inventions described and claimed in the aforesaid patent application; and

WHEREAS, FOCUS PRODUCTS GROUP, LLC, an Illinois Limited Liability Company, having offices located at 120 Lakeview Parkway, Vernon Hills, Illinois 60061 ("ASSIGNEE"), desires to acquire all of ASSIGNOR's right, title and interest to the patent application listed on Schedule A and to the inventions described and claimed in the aforesaid patent application.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, said ASSIGNOR has sold, transferred, and assigned and by these presents does hereby sell, transfer, and assign to ASSIGNEE, its successors, assigns and legal representatives, all of ASSIGNOR'S right, title, and interest in and to said patent application listed on Schedule A attached hereto, including without limitation, all patents which may be granted on the aforesaid patent application, the worldwide rights to the inventions described and claimed therein, any reissues, reexaminations, divisions, continuations, renewals, extensions and continuations-in-part therefor throughout the world, together with all rights under the International Convention for the Protection of Industrial Property and any similar treaties or agreements, the same to be held and enjoyed by ASSIGNEE for its own use and benefit and the use and benefit of its successors, assigns and legal representatives, as fully and entirely as the same would have been held and enjoyed by ASSIGNOR, had this Assignment not been made, together with all income, royalties, damages or payments resulting from or attributable to activity or conduct after the effective date of this Assignment, and the right to sue and collect for all future, present and past infringements thereof, including infringements which may have occurred prior to the execution of this Assignment.

ASSIGNOR agrees: (a) to execute (i) all necessary papers throughout the world to be used in connection with the patent application set forth on attached Schedule A, including the worldwide rights to the inventions described and claimed therein, and any reissues, reexaminations, divisions, continuations, renewals, extensions and continuations-in-part therefor, as ASSIGNEE may deem necessary or expedient, (ii) all papers in connection with any interference, legal or other proceedings throughout the world to maintain, protect or enforce, or otherwise relating to, the aforesaid patent application, including the worldwide rights to the inventions described and claimed therein, or any reissues, divisions, continuations, renewals, extensions and continuations-in-part therefor, and (iii) all papers and documents which may be necessary throughout the world in connection with the preparation and filing of any foreign applications or with making claims to priority rights granted under the provisions of the International Convention for Protection of Industrial Property or similar agreements; (b) to cooperate with ASSIGNEE at ASSIGNEE's expense in every way reasonably possible in obtaining evidence and going forward in any such proceedings throughout the world; and (c) at ASSIGNEE's expense to perform all other affirmative acts which in ASSIGNEE's reasonable discretion may be necessary or desirable throughout the world to maintain, protect or enforce the aforesaid patent application, including the worldwide rights to the inventions described and claimed therein, and any reissues, divisions, continuations, renewals, extensions and continuations-in-part therefor. These obligations of assistance by ASSIGNOR shall continue for so long as ASSIGNEE may require such assistance from ASSIGNOR.

This Assignment includes the right, where such right can be legally exercised by ASSIGNEE, in its own name, to apply for and obtain patents in countries foreign to the United States of America, including the full right to claim for any such applications the benefits of the International Convention for Protection of Industrial Property or similar agreements, as fully and entirely as ASSIGNOR could have done if the applications had been filed in its name, and the entire interest in any patents which may be granted on any such applications in such foreign countries.

ASSIGNOR hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States, and the appropriate officials in any other country, to issue any and all Letters Patent that may be granted upon any patents or any reissues, divisions, continuations, renewals, extensions and continuations-in-part therefor covered by this Assignment to ASSIGNEE, its successors and assigns.
