ASSIGNMENT OF PATENT RIGHTS

For good and valuable consideration, the receipt of which is hereby acknowledged, Zetta Research, LLC, ("Assignor"), does hereby sell, assign, transfer, and convey unto Google Inc. ("Assignee"), or its designees, all of Assignor's right, title, and interest that exist today and may exist in the future in and to any and all of the following (collectively, the "Patent Rights"):

- (a) the provisional patent applications, patent applications and patents listed in the table below (the "Patents");
- (b) all patents and patent applications (i) to which any of the Patents directly or indirectly claims priority, (ii) for which any of the Patents directly or indirectly forms a basis for priority;
- (c) all reissues, reexaminations, extensions, continuations, continuations in part, continuing prosecution applications, requests for continuing examinations, divisions, registrations of any item in any of the foregoing categories (a) and (b);
- (d) all foreign patents, patent applications, and counterparts relating to any item in any of the foregoing categories (a) through (c), including, without limitation, certificates of invention, utility models, industrial design protection, design patent protection, and other governmental grants or issuances;
- (e) all items in any of the foregoing in categories (b) through (d), whether or not expressly listed as Patents below and whether or not claims in any of the foregoing have been rejected, withdrawn, cancelled, or the like;
- (f) all inventions, invention disclosures, and discoveries described in any item in any of the foregoing categories (a) through (e) that are or could have been included in any claim in any item in any of the foregoing categories (a) through (e) and/or are of subject matter capable of being reduced to a patent claim in a reissue or reexamination proceeding brought on any item in any of the foregoing categories (a) through (e);
- (g) all rights to apply in any or all countries of the world for patents, certificates of invention, utility models, industrial design protections, design patent protections, or other governmental grants or issuances of any type related to any item in any of the foregoing categories (a) through (f), including, without limitation, under the Paris Convention for the Protection of Industrial Property, the International Patent Cooperation Treaty, or any other convention, treaty, agreement, or understanding;
- (h) all causes of action (whether known or unknown or whether currently pending, filed, or otherwise) and other enforcement rights under, or on account of, any of the Patents and/or any item in any of the foregoing categories (b) through (g), including, without limitation, all causes of action and other enforcement rights for
 - (i) past, present, and future damages,
 - (ii) injunctive relief, and

PATENT

Assignor represents, warrants, and covenants that:

(1) Assignor has the full organizational power and authority and has obtained all third party consents, approvals and/or other authorizations required to enter into this Agreement and to carry out its obligations hereunder, including the assignment of the Patent Rights to Assignee; and

(2) To Assignor's Knowledge: (i) Assignor owns, and by this document assigns to Assignee, all right, title, and interest to the Patent Rights, including, without limitation, all right, title, and interest to sue for infringement of the Patent Rights; (ii) Assignor has obtained and properly recorded previously executed assignments for the Patent Rights as necessary to fully perfect its rights and title therein in accordance with governing law and regulations in each respective jurisdiction; (iii) the Patent Rights are free and clear of all liens, claims, mortgages, security interests or other encumbrances, and restrictions and (iv) there have been no prior sales of any of the Patent Rights by Assignor that originated from any prior owner of the Patent Rights. There are no actions, suits, investigations, claims or proceedings threatened, pending or in progress relating in any way to the Patent Rights, other than any customary prosecution activities. There are no existing contracts, agreements, options, commitments, proposals, bids, offers, or rights with, to, or in any person to acquire any of the Patent Rights.

Assignor hereby authorizes the respective patent office or governmental agency in each jurisdiction to issue any and all patents, certificates of invention, utility models or other governmental grants or issuances that may be granted upon any of the Patent Rights in the name of Assignee, as the assignee to the entire interest therein.

Assignor will, at the reasonable request of Assignee and without demanding any further consideration therefor, execute, acknowledge, and record any specific assignments, oaths, declarations, powers of attorney and other documents on a country-by-country basis, to assist Assignee in obtaining, perfecting, maintaining, and/or enforcing the Patent Rights. Assignor shall use commercially reasonable efforts at the reasonable request of Assignee to assist Assignee in its efforts to obtain from the respective inventors, prompt production of pertinent facts and documents, giving of testimony, execution of petitions, oaths, powers of attorney, specifications, declarations or other papers, and other assistance reasonably necessary for filing patent applications, complying with any duty of disclosure, and conducting prosecution, reexamination, reissue, interference or other priority proceedings, opposition proceedings, cancellation proceedings, public use proceedings, infringement or other court actions and the like with respect to the Patent Rights. With prior written approval by Assignee, Assignor will pay Assignor's reasonable costs and expenses in connection with such cooperation; provided that if Assignee does not provide such approval, Assignor will have no obligation to provide such cooperation.

The terms and conditions of this Assignment of Patent Rights will have to the benefit of Assignee, its successors, assigns, and other legal representatives and will be binding upon Assignor, its successors, assigns, and other legal representatives.

This Assignment of Patent Rights is made pursuant to the Patent Purchase Agreement by and between Assignor and Assignee dated as of January 13, 2011. Any capitalized terms used herein that are not defined herein shall be as defined in said Patent Purchase Agreement.

IN WITNESS WHEREOF this Assignment of Patent Rights is executed at San Mateo, CA on January 21, 2011.
