Sir:

The undersigned submits herewith two partially executed Assignment documents that are executed by all of the inventors of the above-captioned application.

In particular, Applicants note that a first Assignment, signed by both inventors, identifies the second inventor with a first name that is different from that provided in the International procedure, i.e., Pedro v. Pedro-Soares. Accordingly, a second Assignment was prepared identifying the second inventor's first name as Pedro-Soares to correspond to the name provided in the International procedure.

While only the second inventor executed the second Assignment, Applicants submit that the two Assignments taken together result in a properly executed Assignment in the name of the inventors, as presented in the International procedure.

Accordingly, it is requested that the enclosed Assignment be recorded by the U.S. Patent and Trademark Office.
