PATENT ASSIGNMENT AGREEMENT

This Patent Assignment Agreement (the "Assignment") dated as of December 17, 2012 (the "Effective Date"), is made by and between Spectrum Brands, Inc. ("Assignor") and Price Pfister, Inc. ("Assignee").

WITNESSETH:

WHEREAS, one of Assignor's and Assignee's affiliates entered into a certain IP Contribution Agreement, dated as of December 17, 2012 (the "IP Contribution Agreement"); and

WHEREAS, pursuant to the IP Contribution Agreement, Assignee shall purchase and accept and Assignor shall transfer and assign to Assignee all of Assignor's right, title and interest in, to and under certain patents and patent applications, as listed in Schedule A hereto, together with reissuances, continuations, continuations-in-part, divisionals, revisions, extensions and reexaminations thereof (the "Patents").

NOW, THEREFORE, in consideration of the premises and covenants set forth herein and in the IP Contribution Agreement and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

Section 1.1 Assignment. Assignor hereby sells, transfers, conveys, assigns and delivers to Assignee, and Assignee hereby purchases and accepts from Assignor, all of Assignor's right, title and interest in, to and under the Patents, including, but not limited to, the exclusive rights to (a) bring actions, defend against or otherwise recover for infringements, and the right to the profits or damages due or accrued, arising out of or in connection with any and all past, present or future infringements of the Patents, (b) apply for, make filings with respect to and maintain all issuances, renewals and extensions thereof, and (c) all other rights of any kind whatsoever of Assignor accruing thereunder.

Section 1.2 Acknowledgement. Assignor hereby acknowledges and agrees that from and after the date hereof, as between the Parties, Assignee shall be the exclusive owner of the Patents.

Section 1.3 Cooperation. This Assignment has been executed and delivered by the Assignor for the purpose of recording the assignment herein with the appropriate government entity. At Assignee's sole cost and expense, Assignor shall execute and deliver such other documents and take all other actions which Assignee, its successors and/or assigns may reasonably request to effect the terms of this Assignment and to perfect Assignee's right, title and interest in and to the Patents, including, without limitation, its recordation in relevant state and national patent offices.

Section 1.4 EXCLUSION OF WARRANTIES. EXCEPT AS EXPRESSLY PROVIDED IN THE IP CONTRIBUTION AGREEMENT, THERE ARE NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, REGARDING THIS AGREEMENT OR THE SUBJECT MATTER HEREOF, AND ANY

REPRESENTATIONS OR WARRANTIES RELATING TO THIS AGREEMENT OR THE SUBJECT MATTER HEREOF ARE HEREBY DISCLAIMED.

Section 1.5 General Provisions. This Assignment and the IP Contribution Agreement constitute the entire understanding and agreement of the parties hereto with respect to the subject matter hereof and supersede all prior and contemporaneous agreements or understandings, inducements or conditions, express or implied, written or oral, between and among the parties with respect hereto. Nothing contained in this Assignment supersedes, alters or modifies any of the obligations, agreements, covenants or warranties of Assignor or Assignee under the IP Contribution Agreement (all of which survive the execution and delivery of this Assignment as provided and subject to the limitations set forth in the IP Contribution Agreement). In the event of any conflict between the terms of this Assignment and the terms of the IP Contribution Agreement, the terms of the IP Contribution Agreement shall control. This Assignment shall not be interpreted to broaden the scope of Assignee's rights with respect to the Patents beyond those rights provided in the IP Contribution Agreement. This Assignment may not be supplemented, altered, or modified in any manner except by a writing signed by all parties hereto. The failure of any party to enforce any terms or provisions of this Assignment shall not waive any of its rights under such terms or provisions. This Assignment shall bind and inure to the benefit of the respective parties and their assigns, transferees and successors.

Section 1.6 Governing Law, Jurisdiction and Venue. This Assignment shall be governed by, and construed in accordance with, the laws of the State of New York, without regard to any conflict of laws provisions thereof that would result in the application of the laws of another jurisdiction. Both Assignee and Assignor hereby consent to and submit to the exclusive jurisdiction and venue of the federal and state courts located in the State of New York for enforcement or interpretation of this Assignment, and for any disputes under or arising out of this Assignment.

Section 1.7 Counterparts. This Assignment may be executed in counterparts, each of which will be an original as regards any party whose signature appears thereon and both of which together will constitute one and the same instrument.
