## PATENT ASSIGNMENT

This PATENT ASSIGNMENT dated as of March 28, 2012 is executed and delivered to Beckman Coulter Biomedical, LLC, a Delaware limited liability company (the "Assignee"), by Blue Ocean Biomedical, LLC, a Florida limited liability company ("Assignor"). All capitalized words and terms used in this Patent Assignment and not otherwise defined herein shall have the respective meanings ascribed to them in the Asset Purchase Agreement dated as of the date hereof between the Assignor, the Assignee and the other Parties thereto (the "Agreement").

WHEREAS, the Assignor is the owner of the patents or patent applications identified on Schedule A hereto (collectively, the "Acquired Patents"); and

WHEREAS, pursuant to the Agreement, Assignor has agreed to sell, assign, transfer and deliver to Assignee all right, title and interest in, to and under the inventions disclosed in the Acquired Patents, free and clear of all Liens;

NOW, THEREFORE, in consideration of the mutual promises set forth in the Agreement and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Assignor and the Assignee hereby agree as follows:

1. The Assignor does hereby sell, assign, transfer and deliver to Assignee, and Assignee hereby accepts, all right, title and interest in, to and under the inventions disclosed in the Acquired Patents and in and to all letters patents of the United States and all other jurisdictions which may or shall be granted on said inventions, or any parts thereof, or any divisional, continuing, reissue or other applications based in whole or in part thereon, and the right to recover for past infringement of with respect to any of the foregoing, in each case free and clear of all Liens.
2. The Assignor does hereby request and authorize the Commissioner of Patents and Trademarks of the United States of America and all other corresponding authorities of other jurisdictions to issue letters patent on inventions included in the Acquired Patents to the Assignee or the Assignee's nominee, successor or assign.
3. The Assignor, by its execution of this Patent Assignment, and the Assignee, by its acceptance of this Patent Assignment by signing below, each hereby acknowledges and agrees that neither the representations and warranties nor the rights, remedies or obligations of any Party under the Agreement shall be deemed to be enlarged, modified or altered in any way by this instrument. In the event of any conflict or inconsistency between the terms of the Agreement and the terms hereof, the terms of the Agreement shall govern and control. This Patent Assignment may be executed in multiple counterparts and any Party may execute any such counterpart, each of which when executed and delivered shall be deemed to be an original and all of which counterparts taken together shall constitute but one and the same instrument. For purposes of this Patent Assignment, facsimile signatures shall be deemed originals, and the Parties agree to exchange original signatures as promptly as possible.

4. This Patent Assignment, and all claims or causes of action (whether in contract, tort or otherwise) that may be based upon, arise out of or relate to this Patent Assignment or the negotiation, execution or performance hereof, shall be governed by and construed in accordance with the internal Laws, and not the Laws governing conflicts of Laws (other than Sections 5-1401 and 5-1402 of the New York General Obligations Law), of the State of New York.

IN WITNESS WHEREOF, the Assignor has caused this instrument to be duly executed as of the date first above written.
