PATENT

ASSIGNMENT

FOR GOOD AND VALUABLE CONSIDERATION,

The Parties, GreenTec-USA, Inc. ("Assignee") and Stephen E. Petruzzo (hereinafter "the Inventor"), agree that this Assignment supersedes and replaces the Intellectual Property Assignment Agreement with an effective date of December 10, 2009 for the below-identified patent applications.

The Inventor, the undersigned hereby agrees to assign for good and valuable consideration, receipt of which is hereby expressly acknowledged, and pursuant to the December 28, 2009 agreement and do hereby sell, assign and transfer unto

GreenTec-USA, Inc.

a corporation organized under the laws of the Commonwealth of Virginia as Assignee, and its successors, assigns and legal representatives, the entire right, title and interest, for all countries in and to certain inventions relating to

U.S. Application Serial Number: 12/870,075 filed August 27, 2010, for an invention entitled Data Mirroring Method;

U.S. Application Serial Number: 12/910,903 filed October 25, 2010, for an invention entitled Data Mirroring System; and

U.S. Application Serial Number: 13/678,258 filed November 15, 2012, for an invention entitled Data Mirroring Method.

and the invention(s) and improvement(s) set forth therein, and any and all continuations, continuations-in-part, divisionals, and renewals of and substitutes for said application for said Letters Patent, and all the rights and privileges under any and all Letters Patent that may be granted therefor in any country, and any reissues, or reexaminations, or extensions of said Letters Patent. The Inventor requests that any and all Letters Patent for said inventions be issued to said Assignee, its successors, assigns and legal representatives, or to such nominees as it may designate.

The Inventor agrees that, when requested, the Inventor will, without charge to said Assignee but at its expense, sign all papers, take all rightful oaths, and do all acts which may be necessary, desirable or convenient for securing and maintaining patents for said inventions in any and all countries and for vesting title thereto in said Assignee, its successors, assigns and legal representatives or nominees.

The Inventor authorizes and empowers the said Assignee, its successors, assigns and legal representatives or nominees, to invoke and claim for any application for patent or other form of protection for said inventions filed by it or them, the benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it, and to invoke and claim such right of priority without further written or oral authorization from me.

The Inventor hereby consents that a copy of this assignment shall be deemed a full legal and formal equivalent of any assignment, consent to file or like document which may be required in any country for any purpose and more particularly in proof of the right of the said Assignee or nominee to claim the aforesaid benefit of the right of priority provided by the International convention which may henceforth be substituted for it.

The Inventor covenants with said Assignee, its successors, assigns and legal representatives, that the rights and property herein conveyed are free and clear of any encumbrance, and that the Inventor has full right to convey the same as herein expressed. Assignee warrants and represents that its respective signatory whose signature appears below has been and is on the date executed duly authorized by all necessary and appropriate corporate action to execute this Assignment on its behalf.

IN WITNESS WHEREOF, we have hereunto signed for
