**ASSIGNMENT**

THIS ASSIGNMENT is by Ray F. Stewart; Kathryn M. Morton; Aaron Dickerman-Stewart; and Nathan Mak (the "Assignors"), residing in Belmont, California; Palo Alto, California; Redwood City, California; and San Francisco, California, respectively. We, the Assignors have invented certain inventions (the "Invention(s)") described in a United States Patent Application entitled METHODS, SYSTEMS AND DEVICES FOR ANALYZING A SURFACTANT-TREATED BIOLOGICAL FLUID SAMPLE, (the "Application") filed on November 19, 2010 as Application No. 12/736,888.

**Cantimer, Inc.**, a corporation of the State of Delaware, having a place of business at 3700 Haven Court, Menlo Park, California 94025 ("Assignee"), desires to acquire the entire right, title and interest in and to the Inventions and the Application, and in and to any patents (collectively, "Patents") that may be granted for the Inventions in the United States or in any foreign countries.

For valuable consideration, the receipt and sufficiency of which we acknowledge, Assignors hereby sell, assign, and transfer to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Inventions, the Application, and any Patents; any divisions, continuations, and continuations-in-part of the Application and any other application claiming priority rights from the Application; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Application (collectively, the "Rights"). Assignors warrant that they are the owners of the Rights, and that the Rights are unencumbered. Assignors also agree to not sign any writing or do any act conflicting with this assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of the Rights; prepare and prosecute the Application or any other applications for Patents; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights.

[The remainder of this page intentionally left blank.]

Assignors request the Commissioner of Patents to issue any Patent of the United States that may be issued on the Inventions to Assignee. This Assignment may be executed in counterparts.
