(C) In consideration of one U.S. dollar, and other good and valuable consideration, the receipt, sufficiency, and adequacy of which are hereby acknowledged, the Assignor hereby assigns to the Assignee all of the rights that Assignor received from Russell Wilson in the assignment recorded in the United States Patent and Trademark Office at reel/frame number 019199/0246 in the Applications and Patents, and the right to prosecute any and all of said Applications jointly in the names of the Assignor and Assignee, the right to jointly claim priority from said Applications, the right to jointly file additional continuation and divisional applications claiming priority therefrom, the right to have any and all Patents issuing or being granted from said Applications issue or be granted jointly in the names of the Assignor and Assignee, and all privileges and benefits thereof, to the same extent as if Russell Wilson had directly assigned his rights in the invention to Assignee rather than Assignor.

(D) For said considerations it is hereby agreed by the Parties hereto to execute any necessary and proper oaths, affidavits or other documents relating to said Applications or required for the filing or prosecution or said Applications, or for the filing or prosecution of any application for the reissue or extension of any and all Patents that may be granted on or issued from said Applications, and to execute any and all documents necessary to invest title in said Applications and Patents jointly and equally in the names of the Parties. It is further agreed by the Parties hereto, in the event any of said Applications or Patents becoming involved in an interference proceeding, reexamination proceeding, opposition proceeding, revocation proceeding, or any other legal proceeding, to cooperate to the best of their ability in the matters of preparing and executing any documents and giving and producing evidence in support thereof. It is also agreed by the Parties to perform any and all affirmative acts to obtain issuance of said Patents and vest all rights therein jointly and equally in the Parties hereto as fully and entirely as the same would have been held and enjoyed by the Assignor if this assignment and sale had not been made. The Parties also further agree, for the said considerations, to promptly perform all lawful acts necessary or advisable in connection with maintaining, enforcing, or transferring the resulting grants of said Patents in the United States or any other country in the world. It is

agreed that such lawful acts include, but are not limited to, taking oaths, executing declarations, powers, assignments and other papers and giving testimony.

IN WITNESS whereof the Parties hereto have caused this Assignment to be duly executed on the day and year first written below.
