## PATENT ASSIGNMENT

---

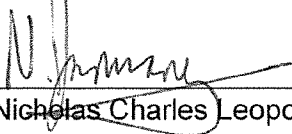

**Applicant:** Nicholas Charles Leopold Jarmany of Chislehurst, U.K., is the owner of the inventions disclosed in a U.S. Provisional Patent Application No. 61/481,618 filed January 19, 2012 and one or more U.S. Non-Provisional Patent Applications claiming the benefit of the priority of U.S. Provisional Patent Application No. 61/481,618 ("Inventions").

**Assignee:** Quixant, Ltd. of Cambridge, U.K., desires to acquire the entire right, title and interest in the Inventions.

In consideration of good and valuable consideration, the receipt of which is hereby acknowledged, Applicant sells, assigns and transfers unto Assignee the full and exclusive right to the Inventions in the United States and the entire right, title and interest in and to any and all patents which may be granted therefore in the United States and all rights and privileges under the patents that may be granted therefor, including the right to claim the benefit of an earlier filing date for the same invention in a foreign country. Applicant hereby authorizes and requests the Director of the U.S. Patent and Trademark Office to issue said United States patent(s) to Assignee fully and entirely.

For the same consideration, Applicant hereby agree to promptly communicate to the Assignee, or its assigns, full and complete information concerning the Invention and agrees to cooperate at any time upon request of said Assignee, or its assigns, at Applicant's expense, in the procurement of patent protection to cover the Invention, including the execution of new, divisional, continuing, reexamination and reissue applications. Applicant will make all rightful oaths, will testify in any proceedings in the United States Patent Office or in the courts, and generally will do everything lawfully possible to aid Assignee, its successors, assigns and nominees to obtain, enjoy and enforce their patent rights.

Effective as of January 19, 2012, and agreed to by:
