**ASSIGNMENT OF UNITED STATES PATENT APPLICATION**

Whereas, Gregory Michael McCollom (hereinafter referred to as the "Inventor"), has invented certain new and useful improvements (hereinafter referred to as "Invention"), which have been or will be covered by a U.S. patent application, the identity of which the Inventor has authorized his attorney to add when known:

Whereas STAR EnviroTech, Inc., a corporation of Delaware, having a principal place of business at 17852 Gothard Street, Huntington Beach, California 92647 (hereinafter referred to as "Assignee") wishes to acquire all of the Inventor's right, title and interest in and to said Invention and the patent application therefor;

Now, therefore, in consideration of the sum of One Dollar (\$1.00) and other valuable consideration, the receipt and sufficiency of which are hereby acknowledged, said Inventor has sold, assigned, and transferred and by these presents does sell, assign, and transfer unto Assignee and to its successors, legal representatives and assigns, the Inventor's entire right, title and interest in and to said Invention and in and to said patent application as well as any continuation, division, reissue and reexamination certificate thereof for the territory of the United States of America and for all foreign countries, said Invention and patent application to be held and enjoyed by Assignee for its own use and enjoyment and for the use and enjoyment of its successors, legal representatives and

Said Inventor hereby covenants that he has the full right to convey the interest herein assigned, and that he has not executed, and will not execute, any agreement in conflict herewith.

Said Inventor further covenants and agrees that he will communicate to Assignee and its successors, legal representatives and assigns, any facts known to him respecting said Invention, and testify in any legal proceeding, sign all applications, make all rightful oaths, and, at no expense to himself, do everything reasonable to aid Assignee and its successors, legal representatives and assigns to obtain and enforce proper patent protection for said Invention in all countries.

Said Inventor acknowledges that this Agreement is not subject of any employment agreement as defined under the provisions of Section 2870 of the California Labor Code, which states that:

Any provision in an employment agreement which provides that an employee shall assign, or offer to assign, any of his or her rights in an invention to his or her employer shall not apply to an invention that the employee developed entirely on his or her own time without using the employer's equipment, supplies, facilities, or trade secret information except for those inventions that either:
