## ASSIGNMENT

WHEREAS I, William P. Schmidt, ("Assignor") have made or contributed to a certain new and useful invention, development, design and/or subject matter as set forth in the patents and patent applications set forth in the schedule annexed hereto as Exhibit A ("Applications");

WHEREAS I hereby declare and provide the following statement: (1) the Applications were made or were authorized to be made on my behalf; (2) I believe I am the original inventor or an original joint inventor of a claimed invention in the Applications; and (3) I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that any willful false statement made in such declaration or statement is punishable under section 1001 of title 18 by fine or imprisonment of not more than 5 years, or both.

AND WHEREAS, to the extent not already acquired, Mirror Lite Company, a Michigan corporation, with its principal office at 20950 Woodruff Road, Rockwood, Michigan 48173, is desirous of acquiring the entire right, title and interest in and to said invention and in and to any and all Letters Patent of the United States and foreign countries which may be obtained therefore (Assignee);

NOW, THEREFORE, for good and valuable consideration, the receipt for and sufficiency of which is hereby acknowledged, Assignors do hereby sell, assign, transfer and set jointly over unto Assignee, its legal representatives, successors, and assigns, the entire right, title and interest in and to said invention development, design and/or subject matter as set forth in the Applications, and any modifications and/or improvements relating thereto (hereinafter "invention"), and any additional patent applications and patents in the United States and foreign countries, and any provisional applications, original applications, non-provisional applications, formal applications, continuation applications, continuations-in-part applications, continued prosecution applications, request for continued examination applications, divisional applications, reissue applications, re-examinations or extensions thereof, and in and to any and all patents of the United States and foreign countries which may be issued or have already issued for said invention and any additional inventions, developments, designs and/or subject matter relating to said invention (hereinafter "related inventions"), and all proprietary, trade secret, intellectual property and/or confidential rights related to said invention and related inventions, and all rights to claim priority therefrom and/or thereto; and any copyright or designs associated with or in said invention and related inventions; and all rights of action and damages for any past, present or future infringement relating thereto, including all rights of actions and damages from publication of the patent applications and/or issuance of any patent relating thereto;

UPON SAID CONSIDERATIONS, Assignor hereby agrees with the said Assignee that Assignor will not execute any writing or do any act whatsoever conflicting with these presents, and that Assignor will, at any time upon request, without further or additional consideration but at the expense of said Assignee, execute such additional assignments and other writings and do such additional acts as said Assignee may deem necessary or desirable to perfect the Assignee's enjoyment of this grant, and render all necessary assistance in making application for and obtaining said invention, related inventions, provisional applications, original applications, non-provisional applications, formal applications, continuation applications, continuations-in-part applications, continued prosecution applications, request for continued examination applications, divisional applications, reissue applications, re-examinations, extensions thereof, or extended Letters Patent of the United States or of any and all foreign countries on said invention, and in enforcing any rights or causes of action accruing as a result of such applications or patents, by giving testimony in any proceedings or transactions involving such applications or patents, and by executing preliminary statements and other
