ASSIGNMENT

This Assignment is made by Lee Jones, Samuel Heffington, and Raghavendran Mahalingam (hereinafter referred to as "Assignors").

WHEREAS, Assignors have invented a new and useful invention entitled:
**THERMAL MANAGEMENT OF VERY SMALL FORM FACTOR PROJECTORS
WITH SYNTHETIC JETS**

for which an application for United States Provisional Patent is made, said application being assigned U.S. Serial No. **60/851,660** and a filing date of **October 13, 2006**; and

WHEREAS, Assignors believe themselves to be the original inventors of the invention disclosed and claimed in said application for Provisional Patent; and

WHEREAS, the parties desire to have a recordable instrument assigning the entire right, title and interest in and to said invention, said application and any Letters Patent that may be granted for said inventions in the United States and throughout the world, including all U.S. applications, Continuation-In-Part applications, Continuation applications, Divisional applications, and PCT and/or foreign national and/or regional applications;

NOW, THEREFORE, in accordance with the obligations to assign the invention and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors sell, assign, and transfer to **Innovative Fluidics, Inc.** (hereinafter referred to as "Assignee"), the entire right, title, and interest in and to said invention, said application and any Letters Patent that may be granted for said invention in the United States and throughout the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

Assignors agree that, upon request and without further compensation, but at no expense to Assignor, they and/or their legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing, or enforcing Letters Patent in the United States and throughout the world for said invention, and for perfecting, recording, or maintaining the title of Assignee, its successors and assigns, to said invention, said

application, and any Letters Patent granted for said invention in the United States and throughout the world.

Assignors represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignors authorize and request the Commissioner for Patents of the United States and of all foreign countries to issue any Letters Patent granted for said invention, whether on said application or on any subsequently filed divisional, continuation, continued prosecution application or reissue application, to Assignee, its successors and assigns, as the assignee of the entire interest in said invention.

IN WITNESS WHEREOF, Assignors have executed this Assignment on the date provided below.
