DECLARATION (37 C.F.R. 1.63) FOR UTILITY AND DESIGN PATENT
APPLICATION USING AN APPLICATION DATA SHEET (37 C.F.R. 1.76) AND
ASSIGNMENT

Title of Invention: CONSTRUCTION MACHINE OR AGRICULTURAL MACHINE HAVING A
ROTATING WORK DEVICE AND METHOD FOR DRIVING THE ROTATING WORK DEVICE

As a below named inventor, I hereby declare that:

This declaration is directed to the attached application, or (if following box is checked):

[X] United States application or PCT International application number 13/714,642 filed on
December 14, 2012.

The above-identified application was made or authorized to be made by me.

I believe that I am the original inventor or an original joint inventor of a claimed invention in the
application.

I have reviewed and understand the contents of the application, including the claims.

I am aware of the duty to disclose to the United States Patent and Trademark Office all
information known to me to be material to patentability as defined in 37 CFR Section 1.56.

Whereas, the undersigned inventor(s) has/have made certain inventions, improvements, and
discoveries (herein referred to as the "Invention") disclosed in the above-identified patent
application;

Whereas, **BOMAG GmbH**, a corporation organized under the Laws of Germany and having its
principal office at Hellerwald, Boppard, Germany 56154 (herein referred to as "**BOMAG
GmbH**"), desires to acquire, and each undersigned inventor desires to grant to **BOMAG GmbH**,
the entire worldwide right, title, and interest in and to the invention and in and to any and all
patent applications and patents directed thereto;

Now, therefore, for good and valuable consideration, the receipt and sufficiency thereof being
hereby acknowledged, each undersigned inventor ("ASSIGNOR") hereby sells or has sold,
assigns or has assigned, and otherwise transfers or has transferred to **BOMAG GmbH** (the
"ASSIGNEE"), its successors, legal representatives, and assigns, the entire worldwide right,
title, and interest in and to the invention, the above-identified United States patent application,
and any and all other patent applications and patents for the invention which may be applied for
or granted therefor in the United States and in all foreign countries and jurisdictions, including all
divisions, continuations, reissues, reexaminations, renewals, extensions, counterparts,
substitutes, and extensions thereof, and all rights of priority resulting from the filing of such
applications and granting of such patents. In addition, each undersigned inventor hereby
authorizes and requests the Director of the United States Patent and Trademark Office to issue
any United States Patent, and foreign patent authorities to issue any foreign patent, granted for
the invention, to **BOMAG GmbH**, its successors, legal representatives, and assigns, the entire
worldwide right, title, and interest in and to the same to be held and enjoyed by **BOMAG GmbH**,
its successors, legal representatives, and assigns to the full end of the terms for which any and

all such patents may be granted, as fully and entirely as would have been held and enjoyed by the undersigned had this Assignment not been made; and each undersigned inventor agrees to execute any and all documents and instruments and perform all lawful acts reasonably related to recording this Assignment or perfecting title to the invention and all related patents and applications, in **BOMAG GmbH**, its successors, legal representatives, and assigns, whenever requested by **BOMAG GmbH**, its successors, legal representatives, or assigns.

Each undersigned inventor acknowledges their prior and ongoing obligations to sell, assign, and transfer the rights under this Assignment to **BOMAG GmbH** and is unaware of any reason why they may not have the full and unencumbered right to sell, assign, and transfer the rights hereby sold, assigned, and transferred, and has not executed, and will not execute, any document or instrument in conflict herewith. Each undersigned inventor also hereby grants **BOMAG GmbH**, its successors, legal representatives, and assigns, the right to insert in this Assignment any further identification (including, but not limited to, patent Application Number) which may be necessary or desirable for recordation of this Assignment.

I hereby acknowledge that any willful false statement made in this declaration is punishable under 18 U.S.C. 1001 by fine or imprisonment of not more than five (5) years, or both.
