GLOBAL INTELLECTUAL PROPERTY ASSIGNMENT

This Global Intellectual Property Assignment is made and entered into this 29th day of December, 2009, by Speyer Door and Window, Inc., a Florida corporation ("Assignor") in favor of Secura-Seal Technologies LLC, a Pennsylvania limited liability company ("Assignee"). Capitalized terms used but not defined herein shall have the meaning ascribed to such terms in that certain Asset Purchase Agreement dated as of the date hereof by and between Assignor and Assignee (the "Asset Purchase Agreement").

WHEREAS, Assignor has acquired certain rights in the Internet domain names identified in Schedule A attached hereto (collectively, the "Scheduled Domain Names");

WHEREAS, Assignee is desirous of having transferred to it the Scheduled Domain Names and any other domain names used in connection with the Business, as well as the intellectual property and other proprietary rights associated therewith;

WHEREAS, Assignor is the owner of the patents and patent applications set forth in Schedule B attached hereto (hereinafter, the "Scheduled Patents");

WHEREAS, Assignee desires to acquire all right, title and interest in and to the certain inventions, discoveries and improvements associated therewith, including but not limited to the Scheduled Patents, as successor to the business to which such inventions pertain;

WHEREAS, pursuant to the Asset Purchase Agreement, among other things, Assignor agreed to sell, and Buyer agreed to purchase, certain assets of Assignor, as described therein;

WHEREAS, it is a condition to the Closing of the Asset Purchase Agreement that Assignor enter into this Global Intellectual Property Assignment to transfer to Assignee the Intellectual Property;

WHEREAS, Assignee desires to purchase or acquire all of Assignor's right, title and interest in and to the Intellectual Property; and

NOW, THEREFORE, in consideration of the recitals, and the mutual representations, warranties, covenants and agreements set forth in this Agreement, the execution of the Asset Purchase Agreement, the payment of the consideration stipulated in the Asset Purchase Agreement which Assignee has paid in accordance with the Asset Purchase Agreement, and which payment Assignor admits and acknowledges has been made by Assignee, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto, intending to be legally bound, hereby agree as follows:

1. Transfer and Assignment of Rights in Domain Names. Assignor hereby sells, assigns, transfers and sets over to Assignee:

a. All right, title and interest in and to the Scheduled Domain Names together with any and all trademark and service mark rights and the goodwill associated

therewith, or other rights which may be granted on or as a result thereof in the United States and any and all other countries;

b. All right, title and interest in and to all other domain names used solely in connection with the Business, together with any and all trademark and service mark rights and the goodwill associated therewith, or other rights which may be granted on or as a result thereof in the United States and any and all other countries (collectively, the "Unscheduled Domain Names"); and

c. The right to sue and collect damages and/or profits for both past and present causes of action related to, the Scheduled Domain Names and/or Unscheduled Domain Names.

2. Assignment of Patents.

a. Assignor hereby sells, assigns, transfers and sets over to Assignee, and Assignee hereby accepts from Assignor:

i. All right, title and interest in and to the Scheduled Patents together with all inventions, discoveries, know-how, and improvements thereof, and applications related thereto, and any and all continuations, divisions and renewals of and substitutes for said applications, and in, to and under any and all additional patents which may be granted on or as a result thereof in the United States and any and all other countries, and any reissue or reissues or extension or extensions of said patents, including but not limited to the patents and patent applications set forth in Schedule B;

ii. All right, title and interest in and to all other inventions, discoveries, know-how, and improvements thereof, and patents, registrations and applications related thereto, and any and all continuations, divisions and renewals of and substitutes for said applications, and in, to and under any and all additional patents, registrations or other rights which may be granted on or as a result thereof in the United States and any and all other countries, and any reissue or reissues or extension or extensions of said patents created solely by, exclusively for, or otherwise acquired solely by, the Business, including but not limited to all patents, patent applications and registrations therefore (collectively, the "Unscheduled Inventions"); and

iii. The right to apply for patents and to sue and collect damages and/or profits for both past and present infringements of, or other causes of action related to, the Scheduled Patents and/or Unscheduled Inventions.

3. Assignor shall execute and deliver to Assignee such other instruments of sale, transfer, conveyance, assignment and confirmation and shall take such other action at Assignee's cost and expense to register, evidence, perfect and/or exercise the rights conveyed hereunder, as may be reasonably requested by Assignee. With respect to the Scheduled Domain Names and/or Unscheduled Domain Names and without limiting the foregoing, Assignor shall take all steps necessary to effect the changes in name of registrant by the name change provisions of the applicable domain name registrar.

4. All the terms, covenants and conditions in this Global Intellectual Property Assignment shall be binding upon Assignor and its successors and assigns and all others acting by, through, with or under its direction, and all those in privity therewith, and shall inure to the benefit of Assignee and its successors and assigns or nominees.

5. Assignor, for itself and its successors and assigns hereby covenants that Assignor has not and will not execute any instrument or grant or transfer any rights or interests inconsistent with the rights and interests granted herein. Notwithstanding the foregoing, in the event of any conflict between the terms of this Global Intellectual Property Assignment and the Asset Purchase Agreement, the terms and provisions of the Asset Purchase Agreement shall prevail.

[SIGNATURES FOLLOW IMMEDIATELY HEREAFTER]

IN WITNESS WHEREOF, Assignor has executed this Global Intellectual Property Assignment, under seal, as of the day and year first above written.

EXECUTED, at _____, U.S.A., this 29th day of December 2009.
