ASSIGNMENT

WHEREAS, James Douglas Wehrly, Jr., a citizen of the United States and a resident of Austin, Texas, James Wilder, a citizen of the United States and a resident of Austin, Texas, Mark Wolfe, a citizen of the United States and a resident of Round Rock, Texas, and Paul Goodwin, a citizen of the United States and a resident of Austin, Texas, (hereinafter called the "Assignors"), have invented a certain new and useful invention entitled "Circuit Module with Thermal Casing Systems and Methods" (the "Invention") for which an application for a United States Patent was filed on November 18, 2005 (the "Application") and;

WHEREAS, Staktek Group L.P., a Texas limited partnership, having its principal place of business at 8900 Shoal Creek Blvd., Suite 125, Austin, Texas 78757 (hereinafter called the "Assignee"), is desirous of acquiring and Assignors are desirous of assigning to Staktek Group L.P. all right, title and interest in and to said Invention, said Application, and any other patent applications and patents directed to said Invention;

NOW, THEREFORE, Assignors, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, do hereby SELL, ASSIGN and CONVEY unto Assignee all right, title and interest throughout the world in and to said Invention, this assignment including, but not being limited to:

1. Said Invention, said Application, and any other patent applications, patents, or like grants or protection on said Invention made by Assignors or their legal representatives, whether in the United States of America or any other country or place anywhere in the world;
2. All substitutions for and divisions, continuations, continuations-in-part, renewals, reissues, extension, and the like of said Application, and of any other patent applications, patents, or like grants or protection on said Invention, including without limitation, those obtained or permissible under past, present and future laws or statutes;

3. All rights of action on account of past, present and future misappropriation or unauthorized use of said Invention in any form, including but not limited to any infringement of any patent that may issue from the Application or from any other patent applications directed to said invention, any other patents or like grants or protection on said Invention, and any trade secret misappropriation of said Invention;

4. The right to Assignee to file in its name applications for patents and like grants or protection for said Invention in any country or countries foreign to the United States; and

5. All international rights or priority associated with said Invention, said Application, and any other applications for patents, patents and like grants or protection on said Invention.

Assignors covenant that Assignors, their heirs, legal representatives, assigns, administrators, and executors will execute all papers and perform such other acts, with expenses if any to be paid by Assignee, as may be reasonably necessary to give Assignee, its successors and assigns, the full benefit of this Assignment. This Assignment shall be binding upon and shall inure to the benefit of the successors, assigns and legal representatives of the parties hereto.
