**ASSIGNMENT**

I, Mikhail E. Merkurieff of Eagle Mountain, Utah, have invented new, original, and ornamental designs, and new and useful processes and apparatuses entitled COLLAPSIBLE CAMP STOVE (Application No. 29/404,287, filed October 18, 2011) (hereinafter referred to as the "invention").

Merkwares, LLC, (hereinafter referred to as the "ASSIGNEE") a limited liability company of the State of Delaware, having a principal place of business at 7785 Windhover Road, Eagle Mountain, Utah 84005, desires to acquire the entire right, title, and interest in and to the invention and in and to any Letters Patents that may be granted therefor in the United States and its territorial possessions and in any and all foreign countries.

In consideration of the sum of ONE U.S. DOLLAR (\$1.00), the receipt and sufficiency of which is hereby acknowledged, and for other good and valuable consideration, I hereby sell, assign, and transfer to the ASSIGNEE, the full and exclusive right to the invention in the United States and its territorial possessions and in all foreign countries (including the right to claim priority under the terms of the International Convention and other relevant International Treaties and Arrangements from the above-identified application) and the entire right, title, and interest in and to any and all Letters Patents which may be granted therefor in the United States and its territorial possessions and in any and all foreign countries and in and to any and all divisionals, reissues, continuations, substitutions and renewals thereof.

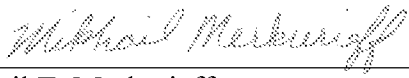

I hereby authorize and request the Patent Office Officials in the United States and its territorial possessions and any and all foreign countries to issue any and all such Letters Patents, when granted, to the ASSIGNEE as the assignee of my entire right, title, and interest in and to the same, for the sole use and benefit of the ASSIGNEE and its successors and assigns, to the

full end of the term for which such Letters Patents may be granted, as fully and entirely as the same would have been held by me had this Assignment and sale not been made.

I agree, without further consideration and without expense to me, that I will communicate to the ASSIGNEE or its representatives any facts known to me respecting the invention, and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuation, substitute, renewal and reissue applications, execute all necessary assignment papers to cause any and all of such Letters Patents to be issued to the ASSIGNEE, make all rightful oaths and declarations, and, generally do everything possible to make this Assignment fully effective and aid the ASSIGNEE and its successors and assigns to obtain and enforce proper protection for the invention in the United States and its territorial possessions and in any and all foreign countries.

I agree that this Assignment shall be binding upon my respective heirs and legal representatives.
