ASSIGNMENT

Dated as of March 30, 2012

WHEREAS, BARRX Medical LLC, located at 15 Hampshire St., Mansfield, MA, 02038, a limited liability company organized under the laws of the State of Delaware and owner of the patent applications and patents listed on the attached *Schedule A* (hereinafter referred to as "Assignor"); and

WHEREAS, Tyco Healthcare Group LP, 15 Hampshire St., Mansfield, MA, 02038, a limited partnership organized under the laws of the State of Delaware (hereinafter referred to as "Assignee"), is desirous of acquiring an interest in the inventions and applications as listed on the attached *Schedule A*, and in any U.S. Letters Patent and Registrations which may be granted on any patent application claiming priority from the same.

For good and valuable consideration, receipt of which is hereby acknowledged by Assignor, Assignor has assigned, and by these presents does assign to Assignee all right, title and interest in and to the inventions and applications (including any continuations, continuations-in-part, divisionals, RCE's or other parent or child applications or inventions) and to all foreign counterparts thereof (including patent, utility model and industrial designs), as listed on the attached *Schedule A*, and in and to any Letters Patent and Registrations which may hereafter be granted on any patent applications claiming priority from the same in the United States and all countries throughout the world, and to claim the priority from the applications as provided by the Paris Convention. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this Assignment not been made, for the full term of any Letters Patent and Registrations which may be granted thereon, or of any division, renewal, continuation in whole or in part, substitution, conversion, reissue, prolongation or extension thereof.

Assignor covenants that no assignments, sale, agreement or encumbrance has been or will be made or entered into which would conflict with this assignment.

Assignor further agrees that Assignor will, without charge to Assignee, but at Assignee's expense, (a) cooperate with Assignee in the prosecution of U.S. Patent applications and foreign counterparts on the invention and any improvements, (b) execute, verify, acknowledge and deliver all such further papers, including applications and instruments of transfer, and (c) perform such other acts as Assignee lawfully may request to obtain or maintain Letters Patent and Registrations for the inventions listed on *Schedule A* and improvements in any and all countries, and to vest title thereto in Assignee, or Assignee's successors and assigns.
