WHEREAS, I, James F. Hanson, of Maynard, Massachusetts U.S.A., have invented an improvement in Shipboard Point, Defense System and Elements Thereof (Raytheon File No. 31717) and have executed an application for United States Patent based thereon on the 13th day of July, 1977; and

WHEREAS, RAYTHEON COMPANY, of Lexington, Massachusetts 02173, U.S.A., a corporation duly organized and existing under and by virtue of the laws of the State of Delaware, U.S.A., is desirous of acquiring certain rights thereunder;

NOW, THEREFORE, for one dollar and other good and valuable consideration, receipt of all of which is hereby acknowledged, I have agreed to and do hereby sell, assign and transfer unto said corporation the entire right, title and interest, in and throughout the world, in and to said U.S. patent, said application and any and all patents (including extensions thereof), of any country, which have been or may be granted on said invention or any part thereof, or on said application or any divisional, containing, substitute or reissue application based in whole thereon, or based upon said invention, and without limiting the generality of the foregoing, I also do hereby assign and transfer unto said corporation all my rights under the International Convention and all other treaties of like purpose, in respect for patents on said invention or any part thereof, in all countries, claiming the priority of the filing date of any said application in the United States of America under the provisions of said International Convention or any other treaty;

TO BE HELD AND ENJOYED by said corporation, its successors and assigns, to the full ends of the respective terms for which said patents or any of them have been or may be granted, as fully and entirely as the same would have been held and enjoyed by me had no sale, assignment or transfer of said right, title or interest been made;

AND I do hereby authorize and request the Commissioner of Patents of the United States of America and the corresponding Officer of each country foreign thereto to issue any and all United States and foreign patents which may be granted upon said applications or any of them in the United States and all other countries, or upon said invention or any part thereof, to said corporation, its successors or assigns;

AND I hereby agree for myself and for my heirs, executors and administrators, to execute without additional consideration any further lawful documents and any further deemed necessary by said corporation for patents of any country, that might be deemed necessary by said corporation, its successors or assigns, fully to secure to said corporation, its successors or assigns its interest as aforesaid in and to said invention or any part thereof, and in and to said several patents or any of them, all, however, at the expense of said corporation, its successors or assigns;

AND I do hereby covenant for myself and my legal representatives, and agree with said corporation, its successors and assigns, that I have granted the right or license to make, use or sell said invention to anyone except said corporation, that prior to the execution of this deed by right, title and interest in said invention had not been otherwise encumbered, and that I have not executed and will not execute any instrument in conflict herewith.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my seal this 13th day of July, 1977.

J. Hanson
J. F. HANSON

Notary Public

On this 13th day of July, 1977, personally appeared the above-named James F. Hanson, personally known to me and known by me to be the one who executed the foregoing instrument, and subscribed the same in my presence, and acknowledged the same to be his free act and deed, before me.
