PATENT ASSIGNMENT

THIS PATENT ASSIGNMENT (this "Assignment") is made and entered into as of April 26, 2013 ("Effective Date") by and between **DEX ONE DIGITAL, INC.**, a Delaware corporation, located at 1001 Winstead Drive, Cary, North Carolina 27513 ("Assignor") and **DEX ONE SERVICE, INC.**, a Delaware corporation, located at 1001 Winstead Drive, Cary, North Carolina 27513 ("Assignee").

WHEREAS, Assignor wishes to assign to Assignee, and Assignee wishes to acquire from Assignor, all of Assignor's right, title and interest in and to the United States patent and patent applications identified and set forth on Schedules A (the "Patents").

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby irrevocably sells, assigns, transfers, and conveys to Assignee, and Assignee hereby accepts, all of Assignor's right, title and interest in, to and under the Patents, for the United States and for all foreign countries, including any continuations, divisions, continuations-in-part, reissues, reexaminations, extensions or foreign equivalents thereof, and including the subject matter of all claims which may be obtained therefrom for its own use and enjoyment, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made, together with all rights to all causes of action and remedies related to the Patents and all rights to sue for past, present or future infringement or other violation of any of the foregoing and all rights to recover damages or lost profits in connection therewith.

Assignor agrees, at the reasonable request and expense of Assignee, to take or cause to be taken all such other actions, including the execution of any and all other instruments in writing, further applications, papers, affidavits, powers of attorney, assignments and other documents, which may reasonably be required or necessary to more effectively secure to, record in the name of, protect and vest in Assignee and its successors and assigns, the entire right, title and interest in and to the Patents. Assignor hereby requests the United States Commissioner of Patents and Trademarks to record Assignee as the assignee and owner of the Patents. This Assignment shall be governed by and construed in accordance with the laws of the State of New York without giving effect to any choice or conflict of law provision or rule that would cause the application of the laws of any other jurisdiction. This Assignment may be executed in counterparts (and by different parties hereto on different counterparts), including by .pdf, each of which shall constitute an original, but all of which when taken together shall constitute a single contract.

[SIGNATURE PAGE FOLLOWS]

IN WITNESS WHEREOF, Assignor and Assignee have caused this Assignment to be executed by their duly authorized representatives as of the Effective Date.
