## Assignment of Invention and Patent Rights

In consideration of the sum of one dollar (\$1.00) and other good and valuable consideration, the receipt of which is hereby acknowledged, the undersigned do hereby sell and assign to Accel Networks, LLC, a Delaware limited liability company, the entire right, title, and interest in and to the Self-Provisioning Antenna System and Method invented by the undersigned and as described in the application for U.S. patent executed by the undersigned concurrently herewith, and any and all applications for patent and patents in any and all countries, including all divisions, continuations, reissues, and extensions thereof and all rights of priority resulting from the filing of said U.S. application. The undersigned further authorize and request any official whose duty it is to issue patents to issue any patent on said invention or resulting therefrom to Accel Networks, LLC, or its successors, assigns, or nominees, and the undersigned agree that on request and without further consideration, but at the expense of Accel Networks, LLC, the undersigned will communicate to Accel Networks, LLC or its representatives or nominees any facts known to the undersigned respecting said invention and testify in any legal proceedings, sign all lawful papers, execute all divisional, continuing, and reissue applications, make all rightful oaths, and generally aid Accel Networks, LLC, its successors, assigns, and nominees to obtain and enforce proper patent protection for said invention in all countries. It is expressly understood and agreed that the foregoing assignment shall in no event delimit the right of Dr. Steven L. Myers to use, make, sell, offer for sale, or import any non-self-provisioning antenna or antenna system.
