WHEREAS, Assignee is desirous of acquiring the entire and exclusive right, title, and interests in and to said patent applications ("**Applications**"), which include any and all subject matter disclosed therein and derivations thereof ("**Inventions**"), any and all Letters Patent issued, any pending or expired U.S. Patent Applications, and any PCT and Foreign Patent Applications therefore.

ASSIGNOR does hereby covenant that each of the Applications and Inventions is owned solely and exclusively by Assignor, free and clear of any liens, encumbrances or right or interest of any third party;

ASSIGNOR does hereby covenant that no assignment, sale, agreement, charge, or other encumbrance, has been, or will be, entered into that would conflict with this assignment;

ASSIGNOR does hereby covenant and agree to provide any tangible property embodying or describing the Inventions, including, without limitation, all documents, drawings, prototypes, models, test results, designs, materials, computer programs and data, and the like, which, if not presently in the possession of Assignee, will be delivered to Assignee immediately upon request;

ASSIGNOR does hereby covenant and agree to do everything possible to aid Assignee, its successors, legal representatives, and assigns to obtain and enforce proper patent protection for the Inventions in all countries including assisting with the preparation of any application relating to the Inventions;

ASSIGNOR does hereby covenant and agree not to contest the validity or enforceability of any intellectual property rights assigned herein, or to assist or request any third party to contest the validity or enforceability of any intellectual property rights assigned herein;

ASSIGNOR does hereby release and forever discharge Assignee from any and all claims, including, but not limited to, any debts, liabilities, damages, and causes of action of whatsoever kind or nature relating to the Inventions, whether or not known, suspected and unsuspected, including any and all previous agreements entered into, which now exist, or may have existed prior to the date of this assignment.

NOW, THEREFORE, in consideration of good and valuable consideration, and for the further consideration of the sum of One Dollar (\$1.00), receipt of which is hereby acknowledged, Assignor hereby sells, assigns, transfers, and sets over unto Assignee, its successors and assigns, the entire and exclusive right, title, and interest in and to said Applications and Inventions, throughout the world, and any other intellectual property rights in the Inventions including, but not limited to, any patent rights, and any patent application(s), claiming priority thereto, that have been or may hereafter be filed, including, but not limited to, all divisionals, continuations, continuations-in-part, reissues, reexaminations, extensions and substitutions thereof, and any right, title and interest Assignor may have in provisional applications for which said Applications claim priority, and any and all PCT and Foreign Patent Applications for said Inventions and all international priority rights associated therewith, and any and all Letters Patents issued therefrom, and Assignor hereby conveys all of Assignor's rights arising under or pursuant to any and all United States laws and international agreements, treaties or laws relating to the protection of industrial property by filing any such Applications, including, but not limited to, any cause(s) of action and damages accruing prior to this Assignment..
