ASSIGNMENT OF PATENT RIGHTS

THIS ASSIGNMENT of Patent Rights ("Patent Assignment") dated as of the 31st day of December, 2009 ("Effective Date"), is by Zest Anchors, Inc., a California corporation ("Assignor") to Zest IP Holdings, LLC, a Delaware limited liability company ("Assignee").

WHEREAS, Assignee and Assignor are parties to a Bill of Sale, General Assignment and Conveyance, dated as of December 31, 2009 (the "Bill of Sale"), pursuant to which Assignor has agreed to sell to Assignee and Assignee has agreed to buy from Assignor the Acquired Assets (as defined therein at Section 2); and

WHEREAS, Assignor desires to transfer and assign to Assignee, and Assignee desires to accept the transfer and assignment of, all of Assignor's worldwide right, title and interest in and to all of Assignor's patents, patent applications and underlying inventions, as set forth in Schedule A ("Patents"), which is annexed hereto and incorporated herein,

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

Assignor hereby assigns, transfers and conveys to Assignee, and Assignee accepts, all of Assignor's right, title and interest throughout the world in and to all Patents and any and all Letters Patent whether U.S. or foreign that are or may be granted therefrom, including without limitation any extensions, continuations, continuations-in-part, divisions, reissues, reexaminations and renewals thereof, or other equivalents thereof, and further, all rights and privileges pertaining to the Patents, including without limitation, the right to sue for injunctive relief and to sue and recover damages for any past, present or future infringement of such Patent rights.

Assignor further assigns all rights, and empowers Assignee, its successors, assigns and nominees, to make applications for patent or other intellectual property registration or protection anywhere in the world, to claim and receive the benefit of any applicable rights of priority in connection with such applications, to prosecute such applications to issue, and to have any and all registrations issued in the name of Assignee.

Assignor further agrees that Assignor will: (i) cooperate with Assignee in the filing and prosecution of any and all patent or other intellectual property registrations or applications, including instruments of transfer in each jurisdiction; (ii) execute, verify, acknowledge and deliver all such further papers, including applications and instruments of transfer in each jurisdiction; and (iii) perform such other acts as Assignee lawfully may request, to facilitate Assignee's right to obtain, protect, maintain, defend or enforce any of the rights to the Patents granted hereunder. In the event that Assignee is unable for any reason whatsoever to secure Assignor's signature to any document when so required to effectuate fully this Assignment, Assignor hereby irrevocably designates and appoints Assignee and Assignee's duly authorized officers and agents, as Assignor's agents and attorneys-in-fact to act for and on its behalf and instead of it, to execute and file any such document and to do all other lawfully permitted acts to further the purposes of the foregoing, with the same legal force and effect as if executed by Assignor.

This Patent Assignment shall be governed and construed in accordance with the laws of the State of New York, without regard to the applicable principles of conflict of laws.

This Patent Assignment shall be binding on, and inure to the benefit of, the parties hereto and their respective successors and assigns.

If any part of this Assignment shall be held by a court of competent jurisdiction to be void, invalid or inoperative, the remaining provisions of this Assignment shall not be affected and shall continue in effect, and the invalid provision shall be deemed modified to the least degree necessary to remedy such invalidation.
