CONFIRMATORY ASSIGNMENT

BETWEEN: -

Danisco US, Inc., a corporation of **Kansas, USA** with an address of **Four New Century Parkway, New Century, Kansas 66031-0026 USA** ("Assignor")
and

Danisco A/S a corporation of **Copenhagen, Denmark** with an address of **Langebrogade 1, DK-1001 Copenhagen, Denmark**("Assignee").

WHEREAS: -

1. As a consequence of the employment of **Huaming Wang** by the Assignor, the Assignor is the owner of and applicant for the invention entitled "**Use of Amidases for converting their substrates having toxicity (Ochratoxin)**" described in the patent applications listed in the Schedule ("the Application(s)") and all intellectual property rights pertaining thereto.
2. As a consequence of the Framework Research & Development Agreement between the Assignor and the Assignee with effective date of **1 May, 2008** the Assignee becomes the owner of the invention and applicant for the Application(s).

NOW IT IS HEREBY WITNESSED and agreed as follows:-

For good and valuable consideration including consideration of 10 Danish kroner and other good and valuable consideration (the receipt of which the Assignor hereby acknowledges), the Assignor hereby confirms assignment to the Assignee of the Invention and all intellectual property rights arising therefrom, including for example: (i) the Application(s) and any patents granted thereon and all reissues, reexaminations, extensions and Supplementary Protection Certificates of said patents, (ii) the right to apply for one or more patents anywhere in the world with respect in whole or in part to the Invention and all patents granted thereon, (iii) the right to claim priority from and all priority rights predicated upon the Invention, the Application(s) or any patent application disclosing in whole or in part the Invention, under the Paris Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other treaties of like purposes, (iv) any and all other patent applications on said Invention anywhere in the world, including all divisional, renewal, substitute, continuation, continuation-in-part, patent-of-addition, Paris Convention, European Patent Convention and Patent Cooperation Treaty applications based in whole or in part upon said Invention or upon said Application(s) or upon said right to claim priority, and any and all patents granted on or from the foregoing, (v) the right to prevent others from infringing any intellectual property rights anywhere in the world, including its right to recover damages in respect of infringements occurring before as well as after the date of this Assignment, and (vi) the right to exploit the invention, the Application(s), and all intellectual property rights arising from the Invention or the Application(s).
