## ASSIGNMENT

WHEREAS, Unwired Planet Inc., a corporation organized under the laws of Delaware having a place of business at 2100 Seaport Blvd., Redwood City, California (the "Assignor"), is the present assignee and owner of certain inventions (the "Inventions"), patent applications (the "Patent Applications") and patents (the "Patents") listed in Exhibit A.

WHEREAS, Unwired Planet LLC, a Nevada limited liability company organized under the laws of the state of Nevada and a wholly owned subsidiary, in part through another wholly owned subsidiary, of Unwired Planet Inc. having a place of business at 226 California Ave., Reno, Nevada (the "Assignee") is desirous of acquiring Assignor's entire right, title and interest in and to said Inventions and in and to any and all of said Patents granted in the United States of America and its territories and possessions, and in and to non-United States of America counterparts thereto, and in and to said Patent Applications to be granted and issued therefor in the United States of America and its territories and possessions, and all non-United States of America counterparts thereto;

NOW, THEREFORE, for a valuable consideration, the receipt of which is hereby acknowledged, the Assignor does hereby sell, assign, transfer and set over unto the Assignee, its successors and assigns, Assignor's entire right, title and interest in and to any and all of the following ("the Rights"):

- said Inventions and all rights in any country of the world with respect to the Inventions listed in Exhibit A;
- said Patent Applications and said Patents listed in Exhibit A;
- All United States patents, patent applications and counterparts with respect to the Patents and Patent Applications, including, without limitation, parent patents and applications, divisional applications, continuation applications, continuations-in-part applications, certificates of invention, re-issue applications and re-examination applications, and other governmental grants or issuances, and includes the right to file any such patent applications, including re-examination petitions (all of the foregoing patents, patent applications and counterparts shall be deemed included within the meaning of the terms "Patents" and "Patent Applications," as applicable, hereunder);
- All non-United States patents and patent applications with respect to the Patents and Patent Applications, including divisional applications or other applications claiming priority rights from the Patent Applications (all of the foregoing patents and patent applications shall be deemed included within the meaning of the terms "Patents" and "Patent Applications," as applicable, hereunder);
- The right to claim priority rights deriving from the Patent Applications and for the Assignee to otherwise avail itself of the provisions of the international conventions governing the protection of inventions;
- All causes of action, remedies and other enforcement rights related to the Patents, Patent Applications and the Inventions, including recovery and damages for past, present and future infringement;
- Any and all other rights and interests arising out of, in connection with, or in relation to the Patents, the Patent Applications and the Inventions; and
- All documents related to the conception, diligence and reduction to practice of the Inventions or inventions claimed or described in any Patent or Patent Application, and all United States and international patent filing documents.

Assignor will not execute any writing or do any act conflicting with this Assignment and, without further compensation, will execute all documents and do such additional acts as Assignee deems necessary or desirable to: perfect enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights.

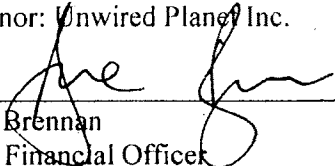

The Assignor requests the respective patent office or governmental agency in each jurisdiction to grant or issue any and all letters patents, certificates of invention or other governmental grants or issuances that may be granted upon any of the Rights in the name of Assignee, as assignee to Assignor's entire interest therein.

With respect to the Rights assigned to Assignee hereunder, Assignor does not retain any right to any recoveries for infringement or to sue in its own name.
