PATENT

ASSIGNMENT

Whereas, the undersigned Inventor(s) has/have made certain inventions, improvements, and discoveries (herein referred to as the "Invention") in:

Title of the Invention: **Magnetic Core Inductor Integrated with Multilevel Wiring Network** and further identified by the Attorney Docket Number provided above in the header of this Assignment, for which an application for a United States Patent was executed on date: September 13, 2012 having application number: 13/613,011

Whereas, Ferric Semiconductor, Inc., having a principal place of business at 503 W. 122<sup>nd</sup> St. Suite 2, New York, NY 10027, desires to acquire the entire worldwide right, title, and interest in and to the Invention and in and to any and all patent applications and patents directed thereto;

Now, therefore, for good and valuable consideration, the receipt and sufficiency thereof being hereby acknowledged, each undersigned Inventor ("ASSIGNOR") hereby sells, assigns, and otherwise transfers to Ferric Semiconductor, Inc. (the "ASSIGNEE") its successors, legal representatives, and assigns, the entire worldwide right, title, and interest in and to the Invention, the above-identified United States patent application, and any and all other patent applications and patents for the Invention which may be applied for or granted therefor in the United States and in all foreign countries and jurisdictions, including all divisions, continuations, reissues, and reexaminations thereof, and all rights of priority resulting from the filing of such applications and granting of such patents. In addition, each undersigned ASSIGNOR hereby authorizes and requests the Director of the United States Patent and Trademark Office to issue any United States Patent, and foreign patent authorities to issue any foreign patent, granted for the Invention, to ASSIGNEE, its successors, legal representatives, and assigns; and each undersigned ASSIGNOR agrees to execute any and all documents and instruments and perform all lawful acts reasonably related to recording this Assignment or perfecting title to the Invention and all related patents and applications.
