OP \$40.00 7667609

Assignment of Rights: Patent

Kevin Roe, ("Assignor") is the owner of the patented invention entitled "Expert System Rescue of Impaired Equipment Operators," as described in the U.S. Patent 7,667,609, U.S. Patent and Trademark Office Serial Number 11/787,494, filed April 16, 2007, and issued as a U.S. Patent on February 23, 2010, (the "Patent"). Vehicle Intelligence and Safety LLC, a Nevada LLC (having an office at 155 E. Campbell Ave Suite 203 Campbell, CA 95129) ("Assignee") desires to acquire all rights in and to the Patent (and any continuations, reissues, reexaminations, or substitutes) that may be granted.

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignor assigns to Assignee 100% of his right, title, and interest in the invention and the Patent to the Assignee for the entire term of the issued Patent and any continuations, reissues, reexaminations, or substitutes that may be granted.

Assignor assigns to Assignee all rights to sue for past, present and future infringement, including the right to collect and receive any damages, royalties, or settlements for such infringements, all rights to sue for injunctive or other equitable relief, and any and all causes of action relating to the Patent. Assignor expressly retains no rights in or to the Patent, including without limitation, the right to sue for infringement of the Patent.

Assignor authorizes the United States Patent and Trademark Office to record the assignment of the Patent to Assignee according to the percentage interest indicated in this assignment. The right, title and interest are to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees to: (a) execute, verify, acknowledge and deliver all such further papers, including instruments of transfer; and (b) perform such other acts as Assignee lawfully may request to obtain or to maintain the Patent for the invention at the expense of the Assignee.

Assignor hereby represents and warrants

- i) that it has the legal right and authority to execute this Agreement, and to validly assign the entire interest in the Patent to Assignee,
- ii) that it has not executed any other agreement that would conflict with the terms of this Agreement, nor shall it execute any such agreement in the future, and

iii) that to the best of Assignor's knowledge, the Patent is valid and enforceable as of the date of this Agreement. Assignor makes no representations or warranties as to the validity or enforceability of the Patent subsequent to the date of this Agreement.

This Agreement shall be construed in accordance with, and governed in all respects by, the laws of the State of California, without regard to conflicts of law principles.

If any part or parts of this Agreement shall be held unenforceable for any reason, the remainder of this Agreement shall continue in full force and effect. If any provision of this Agreement is deemed invalid or unenforceable by any court of competent jurisdiction, and if limiting such provision would make the provision valid, then such provision shall be deemed to be construed as so limited.

This Agreement constitutes the entire agreement between Assignor and Assignee, and supersedes any prior assignment, understanding, representation, or agreement of any kind preceding the date of this Agreement.

IN WITNESS WHEREOF, this Agreement is executed the day and year written below.
