JOINT TO CORPORATE ASSIGNMENT

WHEREAS, the undersigned, Jordan Krechmer, a resident of Melrose Massachusetts, and Brian D. Musselman, a resident of Melrose Massachusetts, (hereinafter termed "said Inventors"), have invented certain new and useful improvements in a:

APPARATUS AND METHOD FOR THERMAL ASSISTED DESORPTION IONIZATION SYSTEMS

filed March 12, 2013 United States Utility Patent Application No. 13/797,409 (hereinafter termed "said Patent Application") a continuation of United States Utility Patent Application No. 13/364,322 filed February 2, 2012 claiming priority to U.S. Provisional Patent Application No. 61/587,218 filed January 17, 2012; U.S. Provisional Patent Application No. 61/582,204 filed December 30, 2011; and U.S. Provisional Patent Application No. 61/439,866 filed February 5, 2011.

WHEREAS, IONSENSE INC. a juristic entity of the Commonwealth of Massachusetts having a principal place of business at 999 Broadway, Suite 404, Saugus, MA 01906-4510 hereinafter referred to as the ASSIGNEE, is desirous of acquiring all rights, titles and interests in and to said Patent Application and the inventions disclosed therein, and in and to all embodiments of the inventions, heretofore conceived, made or discovered (all collectively herein termed "said Invention").

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the said Inventors hereby sell, assign, transfer and convey to ASSIGNEE the entire right, title and interest (a) in and to said Patent Application and any application claiming benefit of said Patent Application or said Invention; (b) in and to all rights to foreign patent applications claiming priority to said Patent Application, and to apply in any and all countries of the world for patents, certificates of inventions or other governmental grants on said Invention, including the right to apply pursuant to any convention, treaty, agreement or understanding; (c) in and to any and all applications filed and any and all patents, certificates of inventions or other governmental grants granted on said Invention in the United States or any other country, including each and every application filed and each and every patent granted on any application which claims priority to or is a division, substitution, or continuation of any application claiming priority to said Patent Application; (d) in and to each and every reissue or extension of any patent that issues from said Patent Applications; and (e) in and to each and every patent claim resulting from a reexamination certificate for any and all patents that issue from said Patent Application.

2. Said Inventors hereby covenant and agree to cooperate with said ASSIGNEE to enable said ASSIGNEE to enjoy to the fullest extent the right, title and interest herein conveyed in the United States and other countries. Such cooperation by said Inventors shall include prompt production of pertinent facts and documents, giving of testimony, executing of petitions, oaths, specifications, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by said ASSIGNEE (a) for perfecting in said ASSIGNEE the right, title and interest herein conveyed; (b) for complying with any duty of disclosure; (c) for prosecuting any of said Patent Applications; (d) for filing and prosecuting substitute, divisional, continuing

or additional applications covering said invention; (e) for filing and prosecuting applications for reissue of any patent that issues from said Patent Application; (f) for interference or other priority proceedings involving said invention; and (g) for legal proceedings involving said invention and any applications therefore and any patents granted thereon, including without limitation opposition proceedings, cancellation proceedings, priority contests, public use proceedings, reexamination proceedings, compulsory licensing proceedings, infringement actions and court actions; provided, however, that the expense incurred by said inventors in providing such cooperation shall be paid for by said ASSIGNEE.

3. The terms and covenants of this Assignment shall inure to the benefit of said ASSIGNEE, its successors, assigns and other legal representatives, and shall be binding upon said inventors, and said inventor's heirs, legal representatives and assigns.

4. Inventors hereby warrant and represent that no assignment, sale, agreement, contract, encumbrance or understanding has been or will be made which would conflict with this assignment.

5. Inventors further transfer and assign to ASSIGNEE all causes of action, rights, and remedies arising under said Patent Applications, or any applications for United States and/or foreign patents on said invention.

IN WITNESS WHEREOF, the said inventors have executed this instrument on the date as given below and delivered this instrument to said Assignee:
