### ASSIGNMENT

WHEREAS, I, **Jo Won Seuk**, a resident of Highland Falls, New York, have invented certain new and useful improvements in **Body Armor Ballistic Plate Carrier** (hereinafter "the Invention"), which is fully set forth, described and claimed in United States Patent Application Serial Number **12/927,975** filed **November 30, 2010**, (hereinafter "the Patent Application"); and

WHEREAS, **Patrol Incident Gear, LLC.**, a corporation organized and existing under the laws of the State of **New York** and having its principal place of business at 74 Midwest Drive, Pacific, Missouri 63069 (hereinafter "**P.I.G.**"), desires to acquire the entire right, title and interest in and to the Invention, the Patent Application and the letters patents that may be issued therefrom, and any other letters patent applications thereon and/or any letters patents that may be issued from the Invention;

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I, **Jo Won Seuk**, by these presents do sell, assign and transfer unto **P.I.G.** the full and exclusive right to the Invention and the entire rights, title and interest in and to the Patent Application and any and all patents which may be granted therefore.

I, **Jo Won Seuk**, hereby authorize and request the Commissioner for Patents to issue said Patents to **P.I.G.**, of the entire right, title, and interest in and to the same, for his sole use and behoof; and for the use and behoof of his legal representatives, to the full end of the term for which said Patents may be granted, as fully and entirely as the same would have been held by me had this assignment and sale not been made.

Further, I promise and agree to perform, upon request, such other acts as **P.I.G.** may require to enable it or them to procure a Letters Patent on the invention or a reissue or extension thereon in the United States and/or in any foreign country, and/or to hold, enforce or convey the Letters Patents, reissues or extensions.

Executed this 14<sup>th</sup> day of June, 2013.

  
Jo Won Seuk, Sole Inventor
