Exhibit A

PATENT ASSIGNMENT

WHEREAS, Texas MP3 Technologies, Ltd. ("Seller") is the owner of U.S. Patent Nos. 7,065,417 and 6,629,000 and U.S. Patent Applications Nos. 11/411,546, 11/586,462, 11/586,463, 11/648,410, 11/648,427, 11/648,412, and all continuations, continuations-in-part, divisionals, reexaminations, reissues, renewals or extensions of any of these patents or patent applications (collectively, the "'417 Patent Family"); and

WHEREAS mpman.com, Inc., ("Purchaser") is desirous of acquiring Sellers's right, title and interest in, to and under the said '417 Patent Family.

Now, Therefore,

For good and valuable consideration, the receipt of which is hereby acknowledged, Seller hereby sells, assigns, transfers and sets over to Purchaser the '417 Patent Family, and any inventions claimed in said '417 Patent Family, any reissue or reissues of said '417 Patent Family already granted and which may be granted, any certificates of reexamination already granted and which may be granted the same to be held and enjoyed by Purchaser as fully and entirely as the same would have been held and enjoyed by Seller, if this assignment had not been made, along with any and all divisionals, continuations, continuations-in-part, renewals, or extensions; together with all claims for damages by reason of past, current, and future infringement (other than claims that have already been settled as of the date of this agreement) and/or provisional rights under said '417 Patent Family, with the right to sue for, and collect the same for its own use and behalf, and for the use and behalf of its successors, assigns or other legal representatives. This conveyance is subject to all existing licenses to any inventions in the '417 Patent Family that Seller has granted to date.

Texas MP3 represents and warrants that the licenses, liens, and encumbrances listed on the attached Exhibit C are the only licenses, liens, and encumbrances Texas MP3 has granted for all or a portion of the '417 Patent Family. With the exception of this representation regarding the licenses, liens, and encumbrances that Texas MP3 has granted, all rights, title and interest that are conveyed by this Patent Assignment are conveyed, and the Purchaser takes such rights, "as is," without any representation or warranty of any kind by Seller. Seller makes no other express or implied representations or warranties and hereby disclaims all warranties, express or implied, arising by operation of law or otherwise, including, but not limited to, any implied warranty of merchantability, fitness for particular purpose, or non-infringement of third party rights. Without limiting the foregoing, Seller expressly makes no representation or warranty with respect to the validity, enforceability or scope of the patent rights or products covered by the patents. Purchaser expressly agrees, represents and warrants that it has not relied on any express or implied representations or warranties by the Seller in deciding to enter into this transaction.

This Patent assignment constitutes the entire and only agreement between Seller and

Purchaser relating to the sale of Sellers's right, title and interest in, to and under the said '417 Patent Family, and all prior negotiations, representations, agreements and understandings are superseded hereby. No agreements altering or supplementing the terms hereof may be made except by written mutual agreement by the parties.

Seller hereby authorizes and requests the respective patent office or governmental agency in each jurisdiction to issue any and all patents, certificates of invention, utility models or other governmental grants or issuances that may be granted upon any of the '417 Patent Family in the name of the Purchaser.

In Witness Whereof, Seller has executed this Assignment by its duly authorized representative.
