## RESTATED ASSIGNMENT

WHEREAS, as of May 17, 2010, Medegen, Inc., a corporation formed under the laws of the State of California, was the owner of record of the United States Patents and patent applications listed in the attached Schedule A and incorporated herein (the "Patents").

WHEREAS, on or about May 17, 2010, Medegen, Inc. was converted to a California LLC, and its name changed to Medegen, LLC.

WHEREAS, on or about October 27, 2010, it was the intent of Medegen LLC and its parent company CareFusion 303, Inc., a corporation formed under the laws of the State of Delaware and having an address of 3750 Torrey View Court, San Diego, California 92130, ("CareFusion"), to assign the Patents from Medegen LLC to CareFusion. On October 27, 2010, Medegen LLC and CareFusion attempted to effectuate this intent by way of a written assignment, and recorded this Assignment with the Patent Office (*see*, Reel/Frame 025481/0712) (the "Original Assignment").

WHEREAS, during the pendency of a litigation involving two of the Patents, allegations were made that the Original Assignment contained errors (including the misidentification of the assignor as Medegen, Inc, a Delaware Corporation) and was therefore potentially ineffective.

WHEREAS, Medegen LLC and CareFusion desire to restate the Original Assignment to correct any such alleged errors and to memorialize in this Restated Assignment their intent that, as of October 27, 2010, Medegen LLC had assigned the Patents to CareFusion.

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, Medegen LLC ("ASSIGNOR") does hereby sell, assign, transfer and set over, unto CareFusion ("ASSIGNEE"), its successors, legal representatives and assigns, the entire right, title, and interest in the Patents, and does hereby authorize and request the Commissioner for Patents of the United States, whose duty it is to issue patents on applications as aforesaid, to issue all Patents to the ASSIGNEE, its successors, legal representatives and assigns, in accordance with the terms of this instrument. AND ASSIGNOR DOES HEREBY sell, assign, transfer, and convey to ASSIGNEE, its successors, legal representatives, and assigns all claims for damages and all remedies arising out of any violation of the rights assigned hereby that may have accrued prior to the date of assignment to ASSIGNEE, or may accrue hereafter, including, but not limited to, the right to sue for, collect, and retain damages for past infringements of the Letters Patent, before or after issuance.

IN TESTIMONY WHEREOF, the Assignor has caused this Patent Assignment to be executed by its authorized representative, effective as of October 27, 2010.

**Medegen, LLC.**
