ASSIGNMENT

This Assignment is made by Andrew Martz, of 707-1111 Beach Ave., Vancouver, British Columbia, V6E 1T9 and Ross Wightman of 601-850 Burrard St., Vancouver, British Columbia, V6Z 2J1 (collectively the "Assignors") to Omnikon Technologies Ltd. having a postal address of Box 378, 101-1001 West Broadway, Vancouver, British Columbia V6H 4E4 (the "Assignee");

WHEREAS Assignors have invented a new and useful invention entitled METHOD, SYSTEM AND APPARATUS FOR IMAGE CAPTURE, ANALYSIS AND TRANSMISSION, for which United States patent application no. 12/273,505 was filed on November 18, 2008 (the "Invention");

WHEREAS, Assignors believes themselves to be the original, first and joint inventors of the Invention; and

WHEREAS, Assignee desires to acquire by formal, recordable assignment the entire right, title and interest in and to said Invention, said application, and any patent, petty patent, utility model or industrial design right that may be granted for said Invention in the United States, and throughout the world;

NOW, THEREFORE, in consideration of the sum of Ten Dollars (\$10.00) and of other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged by the Assignors, Assignors hereby sell, assign and transfer to Assignee, the entire right, title and interest in and to said Invention, said application, and any patent, petty patent, utility model or industrial design right that may be granted for said Invention in the United States and throughout the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise, and further including all worldwide right, title and interest in and to any improvements to said Invention.

Further, Assignors agrees that, upon request and without further compensation, but at no expense to Assignors, they and their legal representative(s) and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing or enforcing any patent, petty patent, utility model or industrial design right as may issue anywhere in the world for said Invention, and for perfecting, recording or maintaining the title of Assignee, its successors and assigns, to said Invention, said application, and any patent, petty patent, utility model or industrial design rights granted for said Invention in the United States or anywhere in the world.

Assignors represent and warrant that they have not granted and will not grant to any other any rights inconsistent with the rights granted herein.

Assignors authorize and request the patent authorities of all countries to issue any patent, petty patent, utility model or industrial design rights granted for said Invention, whether on said application or on any subsequently filed division,

continuation, continuation-in-part or reissue application, to Assignee, its successors and assigns, as the assignee of the entire interest in said Invention.
